

(2) In that the reasons have not been given in Division III for the use of a 20% porosity factor, a 65' sand thickness factor and an 85% saturation factor in combination with each other.

(3) In that there are contradictions in Item 13, Division II, and pp. 3 and 5 of Item 3, Division III, under heading "Drainage Area" with reference to the structural position of the Owen tract.

(4) In that insufficient facts and data are given in this offering sheet to warrant the assumption contained therein that this tract will prove commercially productive in the Wilcox sand.

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 22nd day of January 1937, that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Richard Townsend, an officer of the Commission be, and hereby is, designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 6th day of January 1937 at 10:30 o'clock in the forenoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said examiner may designate.

Upon the completion of testimony in this matter the examiner is directed to close the hearing and make his report to the Commission.

By the Commission.

[SEAL] FRANCIS P. BRASSOR, *Secretary*.

No. 205

PRESIDENT OF THE UNITED STATES.

OCMULGEE NATIONAL MONUMENT—GEORGIA

By the President of the United States of America

A PROCLAMATION

WHEREAS the act of Congress entitled "An Act to authorize the establishment of the Ocmulgee National Monument in Bibb County, Georgia", approved June 14, 1934 (48 Stat. 958), provides, in part:

That when title to lands commonly known as the "Old Ocmulgee Fields", upon which certain Indian mounds of great historical importance are located, comprising approximately two thousand acres, in and around the city of Macon, County of Bibb, State of Georgia, as shall be designated by the Secretary of the Interior, in the exercise of his judgment and discretion as necessary for national-monument purposes, shall have been vested in the United States, said area shall be set aside as a national monument, by proclamation of the President, and shall be known as the "Ocmulgee National Monument":

AND WHEREAS the Secretary of the Interior has designated an area comprising 678.48 acres of such land as necessary for national-monument purposes, title to which is vested in the United States:

NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, President of the United States of America, under and by virtue of the authority vested in me by the statutory provisions above set out, do proclaim that the aforesaid area as indicated on the diagram attached hereto and forming a part hereof¹ is hereby set aside as a national monument to be known as the Ocmulgee National Monument.

Warning is hereby expressly given to all unauthorized persons not to appropriate, injure, destroy, or remove any feature of this monument and not to locate or settle upon any of the lands thereof.

The Director of the National Park Service, under the direction of the Secretary of the Interior, shall have the supervision, management, and control of the monument as provided in the act of Congress entitled "An Act To establish a National Park Service, and for other purposes", approved August 25, 1916 (39 Stat. 535, U. S. C., title 16, secs. 1 and 2), and acts supplementary thereto or amendatory thereof.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States to be affixed.

DONE at the City of Washington this 23d day of December, in the year of our Lord nineteen hundred and thirty-six and of the Independence of the United States of America [SEAL] the one hundred and sixty-first.

By the President, FRANKLIN D. ROOSEVELT
R. WALTON MOORE,
Acting Secretary of State.

Part VI. Instructions for Executing Report of Nonpayment Farms, Form WR-13.

- Section 52. General Instructions.
- Section 53. Execution of Form WR-13.

Part I. General Information for County Office

Section 1. Employment of Supervisors.—Supervisors will be appointed for the purpose of obtaining an accurate report of performance on each farm for which an application for payment will be filed.

Each county agricultural conservation association will recommend to the State committee men qualified to act as supervisors. One supervisor should be selected to determine performance on not more than one hundred farms. In some cases a smaller number of farms for each supervisor may be desirable. Wherever possible, persons who have had experience in measurement under the agricultural adjustment programs and who have done satisfactory work should be recommended by the county committee. Community committeemen may be selected to act as farm supervisors if they have the necessary qualifications, but members of the county committee should not be selected, except upon approval of the Director of the Western Division. The State committee with the cooperation of the State Director of Extension will approve the number of supervisors to be employed by the

county committee and will provide for such instruction as may be required.

Each supervisor will work under the direction of the secretary of the county association who will be responsible for dividing the county into convenient districts and routing the supervisor in such manner as to permit the work to be done with the minimum amount of travel from farm to farm.

A county having a sufficient number of work sheets to require more than six local supervisors may, with the approval of the State committee, or the State Director of Extension, designate one of the local supervisors as county supervisor. In addition to making the measurements in his own community, such county supervisor should properly direct the work of the local supervisors in the county. The county supervisor will be responsible to the Secretary of the county committee for the work of the local supervisors.

Section 2. Methods of Measurement.—The methods of measurement to be used in any county will be methods approved by the State Director of Extension. Generally speaking, the methods of measurement will be the ones used in the county in connection with the 1933-35 commodity programs. Forms W-42 and W-43, circulars on land measurement distributed in connection with the wheat compliance work of 1934 and 1935, may be used for the guidance of supervisors.

In some special cases it may be advisable to use methods other than those followed generally in the State. In such cases approval of the State Director of Extension, who is authorized to designate a plan of measurement assuring the proper degree of accuracy, should be obtained.

Section 3. Description of Forms.

A. Form WR-10—Report of Performance.—This form has been prepared for the purpose of reporting the operations performed on a farm with respect to which an application for payment will be made. Sections I, II, III, VI, and VII of said form, as well as the map and table on the reverse side thereof, are the same in form and content for all the States comprising the Western Region. However, because of the variation in specified soil-building practices among the States, and because of the consequent variation in practices which may be substituted for soil-conserving crops among the States, Sections IV and V of Form WR-10 differ in each State in the Western Region, therefore, a Form WR-10 has been prepared for each of the thirteen States.

Although Form WR-10 will be prepared in triplicate in the county office, only one copy of the form is required in the State Examination Unit as the basis for verifying the data on applications for payment submitted by the owner and by the operator of a farm.

B. Form WR-11—Application for Payment—Single Farm.—Form WR-11 has been prepared for execution by the owner or the operator of a farm who will apply for a payment under the 1936 Agricultural Conservation Program (not including the Range Program) on only one farm in the county. Should the operator of a farm make application with respect to only one farm in the county, and the owner of the same farm apply for a payment with respect to two or more farms in the county, the operator would execute Form WR-11 and the owner would execute Form WR-12. Form WR-11 contains the essential representations by the applicant and certifications by the person or persons who inspected the farm and by the county committee. The form also provides tables for computing the amount of class I and class II payments, soil-conserving acreage requirements and deductions incurred.

C. Form WB-12—Application for Payment—Multiple Farms.—This form has been prepared for execution by an owner or operator who wishes to apply for payment with respect to more than one farm in the county. The form provides tables for calculating class I and class II payments with respect to as many as four farms in the county upon which neither cotton nor tobacco is grown in 1936. The form also provides tables for computing soil-conserving acreage requirements and deductions incurred on all of the farms included under the application for payment.

(1) Form WR-12-A—County Recapitulation of Applicant's Payments and Deductions.—This form has been pre-

pared for the purpose of reporting the applicant's share of payments and deductions, computed for each farm included under the Application for Payment (Form WR-12). The individual items for each farm will be summarized on Form WR-12-A and a determination of the net payments after deducting for excess soil-depleting acreage on all of such farms will be made thereon.

(2) *Form WR-12-B—Supplement to Table I and Table II of Form WR-12.*—If more than four farms are included under the application for payment, Form WR-12, and/or if cotton or tobacco is grown on any one or more of the farms included under such application, class I and class II payments with respect to such farms will be computed on Form WR-12-B and together with the payments computed on Form WR-12, will be summarized on Form WR-12-A.

(3) *Form WR-12-C—Individual Record of Class I Payments with Respect to Rice.*—This form is applicable only in the State of California and will be used to compute the amount of class I payment to the applicant with respect to rice.

D. *Form WR-13—Report of Nonpayment Farms.*—Where an applicant owns or operates farms in the county with respect to which no application for payment will be made and upon which the total acreage of all soil-depleting crops in 1936 exceeds the total soil-depleting bases for all of such farms, Form WR-13 will be executed by him for the purpose of determining the amount of such excess soil-depleting acreage and for computing a deduction to be made therefor.

E. *Form WR-8—Request to Apply Emergency Drought Provisions to Farm.*—This form is applicable only in designated counties in the States of North Dakota, Montana, and Wyoming and shall be executed by all persons entitled to share in any payment with respect to a farm for the purpose of applying the provisions of Supplement (e) to WR-B-1, Revised,* to such farm. Any forms other than the printed Form WR-8 requesting application of the provisions of Supplement (e) [or Supplement (d)†], WR-B-1, Revised, may, with the approval of the Director of the Western Division, be accepted in lieu of the printed Form WR-8 as requesting application of the provisions of Supplement (e), WR-B-1, Revised.

SECTION 4. *Materials to be Supplied Supervisor.*—The following material should be assembled by the county office¹ for study and use by the supervisor:

1. WR-B-1, Revised, and all amendments thereto.
2. WR-B-2, Revised, for the State and all amendments thereto.
3. Specifications for the State issued by the Director of the Western Division, pursuant to WR-B-2, Revised, for the State.
4. Copies of Forms WR-10, 11, 12, 13, and copies of such special forms as may be applicable to particular areas.
5. Any other pertinent information relative to farms for which work sheets have been filed, obtainable from forms previously filed in connection with commodity adjustment programs such as data taken from applications for wheat allotment or wheat adjustment contracts or from proofs of compliance therewith.
6. Copies of W-42 (The Measurement of Fields Under Production-Control Contracts) and W-43 (The Computation of Acreage under Production-Control Contracts) and such other information on land measurements as may be necessary.
7. A copy of these instructions and of such supplementary instructions as may hereafter be issued.
8. Measurement instruments in those cases where these are being supplied by the county association.

SECTION 5. *General Rules with respect to Fractions, Percentages, Alterations, Signatures, and Authorizations.*—1. If

it is found necessary to correct the figure appearing on any form, a light line should be drawn through the incorrect figure in such manner that the original figure will remain legible. The corrected figure should then be inserted above or to the side of the incorrect figure and should be initialed by the county committeeman who signed the form and one other county committeeman.

2. The signatures and authorizations for persons signing any form shall conform with the requirements set forth in Form ACP-16 entitled "Instructions on Signatures and Authorizations."

3. Where fractions are encountered in calculating, the following general rules shall apply:

(a) Fractions of acres and yields shall be expressed to the nearest tenth of an acre, or a tenth of a unit of yield, provided, however, that in the case of sugar beets the yield entered on line 2 in Table 1 of Forms WR-11 and WR-12 shall be expressed to the nearest tenth of a hundredweight (cwt.).

(b) Five or fewer hundredths shall be dropped and more than five hundredths shall be considered as a whole tenth. For example—when a figure is to be expressed in tenths:

$$\begin{array}{ll} 0.050=0.000 & 0.051=0.1 \\ 0.045=0.000 & 0.082=0.1 \end{array}$$

(c) In computing any payment or division thereof, the foregoing rules shall apply (i. e., five or fewer tenths of a cent shall be dropped and more than five tenths of a cent shall be increased to the nearest whole cent in computing the "Class I Payment for Farms", column (I) WR-11 and column (a) WR-12 and WR-12-B) and hundredths or thousandths of a cent shall be considered as follows in determining whether tenths of a cent should be dropped or increased to the nearest whole cent:

$$\begin{array}{ll} \$0.1849=\$0.18 & \$0.1851=\$0.19 \\ \$0.1850=\$0.18 & \$0.1855=\$0.19 \end{array}$$

(d) Percent of payment to the applicant shall be expressed as follows:

Division of Crop	Division of Payment
$\frac{1}{4}$ – $\frac{3}{4}$	25% –75%
$\frac{1}{3}$ – $\frac{2}{3}$	33.3% –66.7%
$\frac{1}{2}$ – $\frac{1}{2}$	50% –50%
$\frac{1}{6}$ – $\frac{5}{6}$	16.67%–83.33%

When expressed in tenths, if the divisions do not equal 100%, an adjustment shall be made in the highest indeterminate division, or where equal, in the last one.

Part II. Preparation and Execution of Report of Performance, Form WR-10

SECTION 6. *Preliminary Preparation Prior to Inspection of Farm.*—The county committee shall insert in the upper right-hand corner in the space provided therefor the code numbers representing the particular State and county and the serial number assigned to the work sheet, which was previously executed, covering the farm. The committee shall also insert in the spaces provided therefor immediately following the title on the form the name of the State and county in which the farm is located.

The county committee shall enter on line 1 the name and address of the 1936 operator as shown in the work sheet and shall enter in line 2 the name and address of the 1936 owner as shown in the work sheet.

The county committee shall also insert the correct description of the farm in Section I, Description of Farm. This information should agree with the size, acres of crop land, and description of farm reported on the work sheet covering the farm.

SECTION 7. *Outlining of Supervisor's Duties.*—The supervisor shall visit and inspect each farm for which he has received Form WR-10 (Report of Performance). If possible, notice should be sent to the operator on the farm notifying him of the approximate time when the supervisor will visit the farm.

*1 F. R. 1152.

*1 F. R. 753.

†The terms "county" or "State" office, wherever used in this bulletin, shall mean, respectively, those persons or committees in the county or State, who under authorization by the Secretary of Agriculture, are responsible for the local administration of the 1936 Agricultural Conservation Program in the county or State.

If the operator on the farm at the time of the supervisor's visit is not the person whose name appears as operator in line 1 but the operator on the farm at that time is entitled to share in the principal crop, then the supervisor shall strike out the name and address of the operator in line 1 and insert the correct name and address. The supervisor shall also make a record of the date of the change in operation of the farm and state briefly the character of the change.

In section II a (1) there shall be entered the name of the principal crop and the operator's and owner's respective shares expressed in percentages of the total of that crop. For example, if the operator's share of the principal crop under his lease or operating agreement is 50 percent and the owner's share is the same, the division should be shown as 50 percent to operator and 50 percent to owner. If the farm is operated by an owner or a person regarded as being the owner who is entitled to a hundred percent of the principal crop, the entry should be "100% to owner" followed by the word "operator." The principal crop for the farm entered in this section should be the principal soil-depleting crop, determined in accordance with the provisions of Section III, Part 6, WR-B-1, Revised, as amended by Supplement (F) to said bulletin. If there is no soil-depleting crop seeded on the farm for the 1936 harvest the principal crop shall be the soil-conserving crop having the largest 1936 acreage reported in Section V of Form WR-10 on one of the lines 27 to 35, inclusive.

The supervisor shall make inquiry as to whether or not the owner of the farm is the person whose name appears in line 2 as owner. If there has been a change of ownership since the time of filing of the work sheet and the new owner is entitled to share in the principal crop, the supervisor shall correct the name and address of the owner in line 2 which was inserted by the county committee.

The supervisor shall also make inquiry as to whether or not, subsequent to the date of filing the work sheet, any persons other than the operator or owner whose names appear, or which he may have entered, in lines 1 and 2 have, as operator or owner, contributed to the performance on the farm. If it is ascertained that persons other than the operator or owner named in lines 1 and 2 have also contributed to performance, the supervisor shall list the names and addresses of such persons and shall indicate with respect to each the contribution which he made toward the performance and whether he made his contribution as operator or owner.

Before measuring the farm the supervisor shall ascertain whether or not either the owner or the operator intends to make application for payment. If either or both parties intend to make application for payment he shall proceed with the measurement of the farm. If neither party intends to make application for payment the supervisor shall not measure the farm but should indicate in the space provided therefor in Section VII under "Remarks" that no application for payment is to be made.

Before the supervisor affixes his name to the original copy of Form WR-10 in the space provided therefor in Section VII, he should carefully consider the representations contained in this certification. He may execute Form WR-10 even though all the soil-building practices with respect to which Application for Payment has been made, or may be made, have not been completed at the time of his visit to the farm. In those cases where subsequent inspection is necessary the supervisor performing the final inspection shall also affix his signature in Section VII. The date or dates of the execution of Form WR-10 by the supervisor or supervisors, as the case may be, shall be indicated at the left of the form in the space provided. After the supervisor has carefully rechecked and executed Form WR-10 it should then be turned over by him to the county office.

SECTION 8. Measurement of Acreage and Recording of Data.—As a general rule the supervisor shall actually measure all acreages except in those cases in which other reliable measurements are available or in those cases in which acreages may be estimated. If reliable measurements of the acreage of any field on the farm are available to the county

office it may not be necessary that such field be actually measured again; or if the total acreage of a field which has been measured in a previous program is known and recorded and a part of that field only is to be measured, it may be possible to determine the acreage of both parts of the field by actually measuring only one and subtracting that measured acreage from the total acreage of the field. Before directing a supervisor to use the available measurements referred to, however, the county office should make certain that such measurements are accurate.

In addition to recording on Form WR-10⁴ the data required in Sections I to VII, inclusive, the supervisor shall in all cases indicate on the "Map of Farm" on page 4 of Form WR-10 and in the table below the map the fields and acreages which he determines and measures. The supervisor shall indicate on the map the boundaries of the different fields and acreages and shall indicate the same by appropriate letters. In the table below the map the acreage of each of the fields and the use to which it is put shall be recorded.

A. Crops included within the General Soil-Depleting Base.—The supervisor shall measure the total acreage of the crops included within the general soil-depleting base. He may estimate the acreage of each of the different crops included within the total acreage which he has measured. The supervisor shall record the total acreage of all crops included within the general soil-depleting base and the acreage of each of the crops included in such total acreage in Section III and on page 4 of Form WR-10. The total acreage of the crops included within the general soil-depleting base shall be recorded in item 19, Section III of Form WR-10.

B. Crops with Individual Soil-Depleting Bases.—The acreages of cotton, rice, tobacco, sugar beets, and flax should be measured separately. The determination of these acreages by the supervisor shall be reported in Section III and on page 4 of Form WR-10.

C. Abandonment and Sequence of Crops.—Unless otherwise specifically provided, the acreage upon which a soil-depleting crop was planted for harvest in 1936 shall be determined to be and reported as soil-depleting for 1936. This is true even though such soil-depleting crop failed, was abandoned, or was followed by a soil-conserving crop. If any soil-depleting acreage is devoted to any approved soil-building practice, such acreage shall also be reported as an acreage on which a soil-building practice is carried out. Such soil-building practice shall not, however, unless specifically provided in WR-B-2, Revised, for the State, be substituted for a soil-conserving crop.

When two or more soil-depleting crops are seeded for harvest in 1936 on the same acreage, such acreage shall be reported as being devoted to the last of such crops. Thus, any acreage seeded to sugar beets or flax for harvest in 1936 and later seeded to another soil-depleting crop for harvest in 1936 shall be reported as being devoted to the second soil-depleting crop.

D. Soil-Building Practices.—The acreage devoted to each soil-building practice for which a payment is claimed shall be measured separately and reported in Section IV and on page 4 of Form WR-10.

The supervisor shall report in Section IV of Form WR-10 only those soil-building practices which have been carried out in accordance with approved specifications. More than one soil-building practice shall not be reported for payment on the same acreage unless the applicable provisions of the program specifically so provide.

(1) **Acreages on which soil-building practices have been completed on a date prior to measurement.**—In the case of those practices with respect to which the date of performance is part of the requirements, and the date of performance has passed, the supervisor will obtain evidence from the operator that the practice was satisfactorily carried out

⁴ Mapping and recording of data by the supervisor should, in all cases, be on a copy and not on the original of the Report of Performance, (Form WR-10).

in conformity with the required dates, before reporting the acreage of such practices.

In the cases of such practices as terracing and gully control or diking for flood water diversion which have been performed prior to the date of measurement, the supervisor shall, by reference to the specifications, report the acreage covered by these practices.

(2) *Acreages on which soil-building practices will be completed on a date subsequent to measurement.*—Acreage designated by the operator as devoted to a soil-building practice to be completed on a date subsequent to measurement, should, nevertheless, be measured and the notation "Performance to be completed on _____"

(Date)

made after the appropriate letter in the table identifying the acreage with that on the map. Measuring the acreage at the time of the supervisor's visit to the farm will enable a community committeeman, or some other person designated by the county office, to check performance after the date, so as to complete the report of performance after the final inspection has been made.

(3) *Acreage of legumes and grasses.*—The acreage of newly seeded legumes and grasses shall be measured by the supervisor in the same manner as specified for other crops.

(4) *Green-Manure Crops.*—Crops seeded and plowed under as green-manure crops shall also be measured in accordance with the foregoing rules. The supervisor shall determine whether the plowing under has actually accomplished a soil-building purpose and shall not report any acreage on which a poor, abandoned, or volunteer crop, a small stand, or acreage heavily infested with weeds, was plowed under; neither shall he report acreages of such abandoned crops disked in or duck-footed. Green-manure crops not plowed under at the time of the supervisor's visit to the farm should nevertheless be measured, but the final report thereon should be held pending the completion of the practice in accordance with the specifications.

(5) *Forest Trees.*—For reporting acreage planted to forest trees as qualifying for a soil-building payment, such acreage should be measured, calculations being made one-half rod beyond the outside rows of trees. An area comprising two or more rows or plantings of irregular spacings should be figured to include one-half rod beyond the outside rows on either side, provided no crop is grown within one-half rod of the trees. Single rows of trees 160 rods long, no crop being grown within one-half rod of the tree row, may be considered as occupying one acre.

If it appears that the size and number of trees on acreage devoted to forest trees is in accordance with good cultural practices for the county and State, such acreage in forest trees may be reported as meeting the qualifications for a soil-building payment.

When the supervisor finds less than an estimated 300 trees per acre, or less than an estimated 400 trees per single row, or where the planting does not appear otherwise to conform to general farming practices for planting forest trees in that locality, prima facie, such planting shall not be deemed to conform to good cultural practices. In such instances, however, the supervisor shall report the facts in the table below the map on Form WR-10 and defer reporting such acreage as an approved soil-building practice until after the acceptability of such planting has been considered by the county committee.

(6) *Contour Listing.*—The general rules as to measurement shall be applicable in the case of contour listing except that the measurement shall be made between the bottom of outside furrows of the listed area.

(7) *Terracing.*—The general rules as to measurement shall be applicable in the case of terracing except the measurement shall be made from the crown of the lowest terrace to a point above the upper terrace equal to the average distance between the terraces on an average slope.

E. Soil-Conserving Crops.—The acreage in soil-conserving crops (other than the acreage of soil-building practices which qualify as soil-conserving crops) shall be estimated at the

time the soil-depleting acreages and the soil-building acreages are measured. If at a later date, however, and after the soil-depleting bases are finally established, the county committee decides that it is necessary to measure such soil-conserving acreage on certain farms in order accurately to determine the extent to which soil-conserving acreage requirements have been met, the committee may call upon the supervisor to measure such acreage. Measurement of the acreage in soil-conserving crops should be made in all cases where the farmer and the supervisor cannot agree in their estimates of such acreage.

An acreage devoted to a soil-conserving crop in 1936 upon which a soil-depleting crop is seeded for harvest in 1936 shall not be reported as an acreage devoted to a soil-conserving crop. In the States of California, Arizona, and New Mexico, however, an acreage of winter cover crops planted between July 15, 1936, and December 1, 1936, and turned under before reaching maturity with the minimum of ninety days' ungrazed growth shall be classified as an acreage devoted to a soil-conserving crop, although such acreage was previously devoted in 1936 to a soil-depleting crop, for the purpose of meeting the minimum soil-conserving acreage requirement with respect to the sugar beet and flax soil-depleting bases. The acreages of soil-conserving crops shall be reported in Section V and on page 4 of Form WR-10.

SECTION 9. Proof of Seeding of Legumes and Grasses.—In determining the acreages devoted to legumes and grasses in 1936 with poor stands or which have been abandoned, the supervisor shall take into account the following:

- (1) Visual examination of the land claimed to have been devoted to such legumes or grasses;
- (2) Inspection of seed invoices or other papers to determine the rate of seeding per acre;
- (3) Statements from neighbors and community committeemen with respect to the planting and growth of such crops; and
- (4) Such other evidence as may be available.

In every case where there is a bad stand or abandonment of such legumes or grass crops, the supervisor shall attach to his report for the consideration of the county committee a statement with respect to proof of seeding of these crops.

SECTION 10. Soil-Conserving Crops Planted Prior to 1936.—In the case of soil-conserving crops planted prior to 1936 (other than the crops referred to in Section 9) and which are not followed by the seeding of a soil-depleting crop for harvest in 1936, in determining the acreage devoted to such crops in 1936 the supervisor shall, where such crops have partly or wholly disappeared because of insect infestation, take into account the following:

- (1) Visual inspection of the land in question;
- (2) Statements of neighbors and community committeemen; and
- (3) Such other information as may be available.

In each instance the supervisor shall attach to his report for the consideration of the county committee a statement with respect to the proof of the existence of these crops on the farm in 1936.

SECTION 11. Neutral Land.—Land devoted to the neutral uses specified in Part IV, Section 3, of WR-B-1, Revised, such as lanes, roads, or crop land lying idle, should be estimated rather than measured. Such acreages shall be reported in Section VI and on page 4 of Form WR-10.

SECTION 12. Check-up Inspection.—The State or county office may require measurement or remeasurement of the crop acreage on any farm for the purpose of checking the work of supervisors, or in the event of any questions or disagreement arising in connection with the determination of the crop acreages on the farm.

SECTION 13. Instructions for the Preparation of Form WR-10 as Related to Supplement (e) to WR-B-1, Revised.—1. Pursuant to the provisions of Section 1, Supplement (e), land which because of its use on or before July 1, 1936, would otherwise be classified as soil-depleting, soil-conserving, or neutral in 1936 shall not be reclassified on account of its use subsequent to that date for the production in 1936

of emergency forage crops, such as Sudan grasses, spring grains, sorghums, or millets, when such crops are cut for hay or pastured. In view of this provision, land classified as soil-conserving on or before July 1, 1936, and subsequently seeded to an emergency forage crop which is cut for hay or pastured shall nevertheless be reported on Form WR-10 in Section V thereof as a soil-conserving acreage. Likewise the soil-depleting crop followed by such an emergency forage crop so used should be reported in Section III of Form WR-10. Similarly an acreage classified as neutral on or before July 1, 1936, will be reported as neutral in Section VI of Form WR-10 even though after July 1, 1936, such acreage is planted to an emergency forage crop which is cut for hay or pastured.

2. Section 2 of Supplement (e) provides that crops specified in Section 2, Part IV of WR-B-1, Revised, with a nurse crop as provided in said subsection, when such nurse crop is cut for hay (or pastured or clipped green) shall be regarded as used for the production of a soil-conserving crop within the meaning of said Section 2, provided a good stand of such grasses or legumes is attained. In other words, any acreage of soil-conserving crops seeded with a nurse crop when such nurse crop is cut for hay, pastured, or clipped green shall be reported as a soil-conserving crop in Section V of Form WR-10 provided, of course, that a good stand of the soil-conserving crop is attained. On the contrary, if such nurse crop is not cut for hay, pastured, or clipped green, or if a good stand of the soil-conserving crop is not attained, the acreage referred to above shall be reported as soil-depleting in Section III of Form WR-10.

3. In counties designated as "Emergency Drought Counties" (listed in paragraph 4 of this section), farms may be qualified under the provisions of Section 3 of Supplement (e) if all persons entitled to a share in payments to be made with respect to that farm file with the county committee Form WR-8. When Form WR-8 has been filed with respect to a farm the method of reporting the acreages thereon shall be as follows:

(a) *Soil-Depleting Crops.*—Land devoted to the crops specified in Section 1, Part IV of WR-B-1, Revised, when such crops, except corn, sugar beets, or flax, are harvested for hay or pastured, shall be reported in Section VI of Form WR-10 as devoted to neutral uses and shall not be reported in Section V under any circumstances.

(b) *Sugar Beets and Flax.*—That amount of acreage devoted to sugar beets or flax in excess of the respective sugar beet or flax soil-depleting bases, when harvested for hay or pastured, shall be reported in Section VI of Form WR-10 as devoted to neutral uses and shall not be reported in Section V under any circumstances.

(c) *Soil-Conserving Crops.*—Land devoted to the soil-conserving crops specified in Section 2 (a), (b), (c), or (d), Part IV of WR-B-1, Revised, with a nurse crop as specified in said subsection when a good stand of such grasses or legumes is not attained and such nurse crop is cut for hay (or pastured or clipped green) shall be reported as a soil-conserving crop in Section V of Form WR-10.

It should be noted that the soil-building allowance for any farm with respect to which Form WR-8 has been filed shall not exceed an amount equal to \$1.00 multiplied by a number of acres equal to 15 percent of the total soil-depleting base for such farm or \$10.00, whichever amount is the larger.

In counties designated as "Emergency Drought Counties" where the provisions of Section 3 of Supplement (e) to WR-B-1, Revised, have been applied to a farm, in computing the acreage of any soil-depleting crop for the purpose of determining the principal soil-depleting crop within the meaning of the provisions of Section 3, Part VI, WR-B-1, Revised, the crop acreage which would otherwise be classified as soil-depleting except for the provisions of Supplement (e) shall be considered as soil-depleting. In emergency drought counties where the provisions of Section 3 of said Supplement (e) have been applied to a farm a copy of Form WR-B must accompany each Application for Payment submitted with respect to the farm and a notation should be made in the space provided for "Remarks" in Section VII of Form WR-10 to the effect that Form WR-S has been filed.

4. The counties which have been designated as "Emergency Drought Counties" are as follows:

Montana.—Hill, Daniels, Judith Basin, McCone, Wibaux, Yellowstone, Fallon, Carter, Blaine, Sheridan, Fergus, Richland, Golden Valley, Treasure, Carbon, Phillips, Roosevelt, Petroleum, Dawson, Musselshell, Rosebud, Big Horn, Valley, Chouteau, Garfield, Prairie, Stillwater, Custer, Powder River.

North Dakota.—Divide, Rolette, Ward, McKenzie, McLean, Foster, La Moure, Billings, Kidder, Bowman, Emmons, Burke, Towner, McHenry, Dunn, Sheridan, Golden Valley, Dickey, Stark, Stutsman, Adams, Logan, Renville, Williams, Pierce, Mercer, Wells, Griggs, Ransom, Morton, Slope, Grant, McIntosh, Bottineau, Mountrail, Benson, Oliver, Eddy, Barnes, Sargent, Burleigh, Hettinger, Sioux.

Wyoming.—Campbell, Johnson, Sheridan, Converse, Natrona, Weston, Crook, Niobrara, Hot Springs, Goshen, Platte.

SECTION 14. Supplementary Instructions for the States of California, Idaho, Oregon, Washington, Montana, North Dakota, and New Mexico.

A. California.—(1) Form WR-10, Section V—Soil-Conserving Crops. The entry on line 48 must represent the acreage of all soil-conserving crops and practices reported in Section V, which were grown or carried out on land adapted to the production of sugar beets, but the entry on line 48 must not include—

(a) Any acreage reported on line 40.

(b) Any acreage reported on line 47.

B. Idaho, Oregon, and Washington.—(1) *Irrigated land.*—In inspecting and reporting upon acreages devoted to approved soil-building practices, the supervisor must determine whether such acreages are irrigated or non-irrigated in order that soil-building practices may be entered in the appropriate spaces on Form WR-10.

(2) *Disking in of alfalfa on irrigated land.*—This practice does not apply to irrigated orchards.

(3) *Perennial noxious weed control.*—The supervisor shall determine whether or not the practice of weed control has been carried out in accordance with the specifications issued June 20, 1936, for Oregon and Washington, and July 16, 1936, for Idaho, by the Director of the Western Division.

(4) *Controlled summer fallowing in the summer fallow counties of Idaho, in Eastern Oregon, and in the summer fallow counties of Washington.*

(a) *Contour strip fallowing.*—The supervisor shall determine whether or not the practice of contour strip fallowing has been carried out in accordance with the specifications issued July 20, 1936, by the Director of the Western Division.

(b) *Trashy fallowing.*—The supervisor shall determine whether the conditions described in WR-B-2, Revised, for the State have been observed. However, with the approval of the county committee, pasturing of farm work stock, or meat and dairy animals, the products of which are used exclusively on the farm, shall not disqualify this practice for payment.

(5) In the summer fallow counties of Washington, in Eastern Oregon, and in the summer fallow counties of Idaho, land which has been trashy fallowed followed by the seeding of grasses or legumes and qualifies for a class II payment under Practice Number B-4, should be reported on line 44 in Forms WR-10—Washington, and WR-10—Oregon, and on line 43 in Form WR-10—Idaho.

C. Montana.—(1) *Diking for Flood Water Diversion.*—The supervisor must determine whether this practice was carried out in accordance with the specifications issued by the Director of the Western Division. If water has been available, the area which has been flooded should be measured and plotted. If water has not been available, the supervisor shall measure the area which would have been flooded if water had been available to fill the dike system. Measurements shall be made from the crown of the lowest dike to a point beyond the upper dike which would permit flooding without overflowing the dike.

(2) *Protected Summer Fallow.*—The plowing or tilling of abandoned acreage of small grain or corn planted for harvest in 1936 cannot be accepted as fallowing under this heading.

(3) *Strip Fallow.*—In reporting the acreage of strip fallow on any farm the supervisor must be satisfied that such

acreage has been handled in accordance with the intent of the practice, which is to control soil blowing. The first tillage operation (plowing, duckfooting, etc.) must have been completed by June 20, 1936. Intervening strips of crops which do not protect the summer fallow shall not be deemed to qualify. The supervisor shall measure only the acreage of protected fallow. He may estimate whether or not the intervening strips are wide enough to qualify under the conditions set forth in WR—B-2—Montana—1, Revised. The supervisor shall, therefore, indicate on the map in Form WR-10 whether the crop or stubble on the intervening strips is sufficient both in amount of coverage for the intervening strips and in the width of the intervening strips to actually protect the summer fallow. Crops such as tame mustard, millets, sorghums, and small grains may be accepted if the growth is enough to protect the summer fallow during the year.

(4) *Approved summer fallowing in preparation for a soil-conserving crop.*—The supervisor is charged with the duty of determining whether or not the acreage of approved summer fallow in preparation for a soil-conserving crop was first filled prior to May 20, 1936, and that the summer fallow implements used produced a cloddy surface, controlled weeds, and conserved moisture. In accordance with the specifications, producers must obtain approval of the county committee on their plans for the planting of soil-conserving crop on approved summer fallow and must also submit a map showing the exact location and size of the area to be planted. This area should be definitely indicated on the map accompanying the supervisor's report. The supervisor should be provided with a copy of this plan before visiting the farm. The producer's map should be returned to the county committee for filing with the committee's copy of the Report of Performance, Form WR-10.

(5) Where a request has been filed for classification of summer fallow as soil-depleting in those counties in which this is permissible, the supervisor shall report the acreage of summer fallow as devoted to a soil-depleting crop in Section III of Form WR-10 and should also report such acreage in the table below the map.

The acreage in fallow used in accordance with the provisions of Practice Number G-2, in Section IV of Form WR-10—Montana, may be substituted for soil-conserving crops even though summer fallow has been classified as soil-depleting on the farm. Therefore, where either Practice Number G-1 or G-2 has been carried out on a farm in 1936, the committee should draw, on Form WR-10—Montana, a heavy line separating lines 41 and 42 in Section V. In Toole, Liberty, Hill, Phillips, Teton, and Cascade counties where Practice Number G-1 has been carried out on a farm in 1936, a notation must be made in the space provided for "Remarks" in Section VII of Form WR-10—Montana, for the farm, stating whether or not Form WR-10—Supplement-1 has been filed.

D. *North Dakota.*—(1) *Protected summer fallow.*—The plowing or tilling of abandoned acreage of small grain or corn planted for harvest in 1936 cannot be accepted as fallowing under this heading.

(2) *Strip fallow.*—The supervisor shall follow the directions given above in subsection C3 with respect to the State of Montana, except that such fallow must have been plowed prior to June 15, 1936.

(3) *Approved summer fallowing in preparation for a soil-conserving crop.*—The supervisor shall follow the directions given above in subsection B4 with respect to the State of Montana, except that the first tilling of such fallow must have been performed prior to June 15, 1936.

(4) *Application of the provisions of Supplement (h), WR—B-1, Revised.*—In the counties of Cass, Cavalier, Grand Forks, Nelson, Pembina, Ramsey, Richland, Steele, Traill, and Walsh, if the acreage of all soil-depleting crops seeded for harvest on a farm in 1936 is not in excess of 85 percent of the acreage of such crops seeded for harvest in 1935, a request may be filed with the county committee that land devoted to the crops specified in Section 1 of Part IV of WR—B-1, Revised (except corn, sugar beets, and flax), be regarded as devoted to neutral uses when such crops are

harvested for hay or pastured. If such a request has been filed with respect to a farm in the foregoing counties, the supervisor shall ascertain the total acreage of soil-depleting crops seeded for harvest on the farm in 1936. If such acreage is not in excess of 85 percent of the 1935 acreage of all soil-depleting crops seeded for harvest on the farm in 1935, as shown in the work sheet for the farm, an amount of the acreage of crops specified in Section 1, Part IV, WR—B-1, Revised (except corn, sugar beets, and flax), which are cut for hay or pastured shall be reported in Section VI as devoted to neutral uses determined as follows:

The 1936 acreage of such soil-depleting crops may be reduced by the number of acres of such crops which were cut for hay or pastured, pursuant to Supplement (h); provided, however, that for the purpose of computing class I payments the 1936 acreage of such soil-depleting crops shall not be reduced to an amount less than 85 percent of the general soil-depleting base.

It should be noted that the soil-building allowance for any farm with respect to which a request has been filed for the application of the provisions of Supplement (h), WR—B-1, Revised, shall not exceed an amount equal to \$1.00 multiplied by a number of acres equal to 15 percent of the total soil-depleting base for such farm or \$10.00, whichever amount is the larger.

In the counties where the provisions of Supplement (h) to WR—B-1, Revised, may be and have been applied to a farm, two signed copies of Form WR-21 must accompany each application for payment submitted with respect to the farm, and a notation must be made in the space provided for "Remarks" in Section VII of Form WR-10, to the effect that Form WR-21 has been filed.

(a) *Calculations on Form WR-21.*—The entry to be made in item (e) must not be less than 85 percent of the general soil-depleting base established for the farm.

E. *New Mexico.*—(1) Form WR-10, Section V—Soil-Conserving Crops. The entry on line 52 must represent the acreage of all soil-conserving crops and practices reported in Section V, which were grown or carried out on land adapted to the production of sugar beets, but the entry on line 52 must not include—

- (a) Any acreage reported on line 40.
- (b) Any acreage reported on line 51.

SECTION 15. *Execution of Form WR-10.*—Form WR-10 shall be executed in triplicate; one copy shall be sent to the State office, one copy shall be retained in the county office, and the other copy shall be for the producer.

The signature of the operator whose name appears in line 1 and the date of signing must appear in the space provided in Section II on all three copies. Such operator must be entitled to share in the principal crop for 1936. If the signature of such operator has not been obtained, the signature of the owner who did share in the principal crop must be affixed in Section II and the reason why the signature of the 1936 operator could not be obtained should be set forth under "Remarks" in Section VII.

The total payments with respect to a farm shall be divided between owner, or owners as a class, and operator, or operators as a class, in the same proportion that the principal crop is divided under their lease or operating agreement.

The following provisions of this section are restricted to a division of the operator's share of the payment with respect to the farm among operators, owner's share of the payment with respect to the farm among owners, owner-operator's share of the payment with respect to the farm among owner-operators.

If the county committee determines that, on account of their contribution to the performance on the farm subsequent to the filing of the work sheet, any operators other than the operator whose name appears in line 1 are equitably entitled to a portion of the operator's share of the payment to be made with respect to the farm, such determination shall be indicated in Section II of Form WR-10.

If the county committee determines that, on account of their contribution to the performance on the farm subsequent to the filing of the work sheet, any owners other

than the owner whose name appears in line 2 are equitably entitled to a portion of the owner's share of the payment to be made with respect to the farm, such determination shall be indicated in Section II of Form WR-10.

If the county committee determines that, on account of their contribution to the performance on the farm subsequent to the filing of the work sheet, any owner-operators other than the owner-operator whose name appears in line 1 are equitably entitled to a portion of the owner-operator's share of the payment to be made with respect to the farm, such determination shall be indicated in Section II of Form WR-10.

The determination of the county committee shall be based upon such information as may be available to it with respect to the contributions to performance on the farm subsequent to the filing of the work sheet, including the work sheet, the supervisor's report of performance, and any written agreement with respect to the division of payment between the interested parties in accordance with their contribution. The determination of the county committee as to the division of the owner's, the operator's, or owner-operator's share of the payment with respect to the farm shall be inserted by it in Section II of Form WR-10 in the space at the right of the indicated division of the principal crop in such fashion as to give the names, addresses, and the percents of payment to such persons expressed in terms of a percentage share in the principal crop. The examples set out below are illustrative of (1) a case in which a county committee has determined that an owner and an operator in addition to the owner and the operator who shared in the principal crop are entitled to a portion of the owner's and operator's payment, respectively, and (2) a case in which the county committee has determined that an owner-operator in addition to the owner-operator who was entitled to a hundred percent share in the principal crop is entitled to a portion of the payment.

- (1) Principal crop—Wheat:
50% to operator:
John Jones, Manhattan, Kansas 25%.
John Smith, Manhattan, Kansas, 25%.
50% to owner:
The Risk Insurance Company, 20%.
Eldorado Insurance Company, 30%.

- (2) Principal crop—Wheat:
100% to owner (operator):
John Jones, Manhattan, Kansas, 75%.
John Smith, Manhattan, Kansas, 25%.

Immediately upon its determination with respect to the division of any share of the payment with respect to the farm (except where such determination is identical with the written agreement of the interested parties) as provided for in this section the county committee shall notify by mail all interested parties, informing them in such notice that if they do not file written protest of the committee's decision within fifteen days that the determination of the committee shall be final and conclusive. If no protest is filed with the county committee within the required time, then the committee may accept Form WR-10. If a protest is filed within the required time, then Form WR-10 shall not be accepted until the protest which has been filed has been reconsidered by the committee and the time to appeal to the State committee from the decision of the committee with respect to such protest has expired. If an appeal is taken from this decision of the county committee to the State committee, then Form WR-10 shall not be accepted until the State committee has rendered its decision and the interested parties are notified thereof. The procedure in connection with any appeal from the county committee to the State committee shall be that outlined in Supplement (c), WR-B-3.

SECTION 16. Checking of data by county committee.—The county committee shall check carefully the data entered in Sections III to VI, as follows:

1. **Section III (Lines 4-27, Inclusive).**—The 1936 acreage of the crops named herein shall be reported on lines 4-12, inclusive. The names and the 1936 acreages of other soil-depleting crops in the general soil-depleting base grown on the farm in 1936 shall be entered on lines 13-17, inclusive; the 1936 acreage of truck and vegetable crops shall be entered on line 18. The sum of the items reported on lines 4-18, in-

clusive, shall be entered on line 19, and represents the total 1936 acreage of the soil-depleting crops in the general soil-depleting base. Line 20: The 1936 acreage of sugar beets shall be entered on this line. Line 21: The 1936 acreage of flax shall be entered on this line. Line 22: The total 1936 acreage of sugar beets and flax shall be entered on this line. Line 23: The 1936 acreage of cotton shall be entered on this line. Line 24: The 1936 acreage of tobacco shall be entered on this line. Line 25: The total 1936 acreage of cotton and tobacco shall be entered on this line. Line 26: The 1936 acreage of rice grown on the farm shall be reported on this line. Line 27: The total 1936 acreage of all soil-depleting crops shall be entered on this line. This entry will represent the sum of lines 19, 22, 25, and 26.

2. **Section IV.**—The approved soil-building practices have been printed in terminology consistent with the provisions of the program for this State. Such provisions have been stated in detail in order that all of such practices may be accurately ascertained. If a particular practice is carried out in exact conformity with the provisions of said practice, the 1936 acreage upon which such practice was effected shall be entered in this section in the appropriate space. If a practice was not carried out strictly in accordance with the provisions relating thereto, the acreage upon which such practice was carried out shall not be reported in Section IV but should be reported in the table below the Map of Farm (on the carbon copies only) in Form WR-10.

Only one soil-building practice shall be reported with respect to a particular acreage except in the cases specifically provided for where more than one soil-building practice may be carried out on the same acreage.

3. **Section V.**—A general classification of soil-conserving crops appears in Section 2, Part IV, of WR-B-1, Revised, as amended. Land devoted to crops specified therein is to be regarded as used for the production of soil-conserving crops. Other kinds of perennial grasses, annual legumes, biennial legumes, perennial legumes, and green manure crops than those specifically mentioned in Section 2, Part IV of WR-B-1, Revised, as amended, may be approved by the Director of the Western Division after recommendation by the State committee. The kind of soil-conserving crop planted, and the acres of such crop on the farm in 1936, shall be reported under the proper classification in this section on lines 27-32, inclusive. The acres of forest trees planted since January 1, 1934, and the names of any other acceptable soil-conserving crops not stipulated in this section, shall be entered on lines 33, 34, and 35, inclusive. Where lines 38 or 39 are blank no entries shall be made therein. Line 40: Subtotal, on line 40, will represent the acres of crops or practices which qualify in all counties to determine the soil-building allowance only, and are not eligible to meet the minimum of soil-conserving crops required or to qualify the diverted acres for payment. The arrangement of this Section V is, to a large degree, self-explanatory, in that provision is made for reporting:

(a) Soil-building practices which qualify as soil-conserving crops in all counties;

(b) Soil-building practices which qualify as soil-conserving crops for all purposes only in specified counties, or parts thereof, as provided in WR-B-2, Revised, for the State; or

(c) Soil-building practices which qualify only to determine the soil-building allowance.

The soil-building practices, the purpose for which such practices may be substituted for soil-conserving crops, and the area in which such practices may be so substituted, have been printed in Form WR-10, for convenience and accuracy in the execution of said form.

The item relating to acres of soil-conserving crops on land adapted to growing of sugar beets is of importance, and must be filled in only where sugar beets are grown on the farm in 1936, in order that the minimum of soil-conserving crops required with respect to sugar beets may be determined.

4. **Section VI.**—Acres devoted to neutral uses in 1936, and acres which may not properly be reported in any other section of this form, shall be entered in Section VI.

5. *Section VII.*—The county committee shall check the date(s) and the signature(s) of the supervisor(s) who inspected the farm as they appear in Section VII.

6. *Map of Farm.*—As indicated above, the map on page 4 of Form WR-10 is provided for the convenience of the supervisor who inspects the farm and makes his report on Form WR-10. No data should be reported on the map or on the table below the map on the original copy of Form WR-10, which is the copy that will be sent to the State Office in conjunction with the Application for Payment with respect to such farm.

Part III. Instructions for Executing Application for Payment, Form WR-11

SECTION 17. General Instructions for Executing Application for Payment, Form WR-11.—

A. General Information.—The instructions outlined in this section are for general application in all States comprising the Western Region. Supplementary instructions applicable to individual States will be found in Sections 18 to 30, inclusive, of this Part III. The general rules with respect to fractions, percentages, alterations, signatures, and authorizations set forth in Section 5 of Part I are fully applicable in executing the Application for Payment, Form WR-11. Attention is again called to the fact that no changes may be made in the printed matter on Form WR-11. Form WR-11 shall be executed in duplicate, the original to be sent to the State Office, and the remaining copy to be retained for the files of the county association.

B. Persons Eligible to File Form WR-11.—Any operator, owner, or owner-operator who shared, or is entitled to share, in the principal crop (entered as Item a (1) in Section II of Form WR-10), or the proceeds thereof, or who, in accordance with the provisions of Section 15, Part II of this bulletin, is entitled to receive a portion of the operator's, owner's, or owner-operator's share of the payment to be made with respect to the farm shall be eligible to file an Application for Payment. The names, addresses, and percentage shares of the payment to be made with respect to the farm shall appear in Section II of Form WR-10.

C. Execution of Page 1 of Form WR-11.—(1) The State and county code and serial number should be entered in the space provided therefor in the upper right-hand corner.

(2) The committee shall determine that the Name of Applicant, Relation to this Farm, and Address of Applicant are filled in at the top of the form in the spaces provided therefor immediately below the caption.

(3) Fill out the names of the State and county in the spaces provided therefor.

(4) In the statement immediately below the caption "Representations and Application for Payment", the work sheet serial number shall be inserted in the space provided therefor. The work sheet number and the name of the applicant on Form WR-11 must agree with the work sheet number and the name of the owner or operator on Form WR-10, Report of Performance, for the farm with respect to which an Application for Payment has been made.

(5) In paragraph 6 of "Representations and Application for Payment" either the word "do" or the words "do not" should have been deleted by the applicant. If the word "do" is not deleted, Form WR-13, Report of Non-Payment Farms, properly executed must accompany Form WR-11.

(6) The signature of the applicant and the date of execution must appear in the spaces provided therefor. The signature of the applicant on Form WR-11 must agree with the name of the applicant entered in the space provided therefor.

(7) The signature of the supervisor and the date of his signature must appear in the spaces provided therefor immediately below the Certificate of Inspection.

(8) The signature of the county committeeman and the date of signature must appear in the spaces provided therefor immediately below the Certificate of County Committee. The same person shall not sign both the Certificate of Inspection and the Certificate of County Committee.

D. Execution of page 2 of Form WR-11.—(1) *Execution of Table I—Class I Payments.*—

(a) Preparation of Column (B)—1936 Acreage in said Table I.

On Form WR-11 the entry to be made on	Requirement	On Form WR-10 the entry on
Line 1.....	Must agree with.....	Line 19.
Line 2.....	do.....	Line 20.
Line 3.....	do.....	Line 21.
Line 4.....	Must represent the sum of entries on lines 1, 2, and 3 on Form WR-11.	
Line 5.....	Must agree with.....	Line 23.
Line 6.....	do.....	Line 24.
Line 7.....	And must represent the sum of lines 4, 5, and 6 on Form WR-11.	Line 27, Section III, less line 22, Section III.

(b) Preparation of Column (A)—Soil-Depleting Bases.

(1) The total soil-depleting base to be entered on line 7 must agree with the entry for the farm on the County Listing Sheet (Form WR-3).

(2) The tobacco soil-depleting base to be entered on line 6 must agree with the entry for the farm on the County Listing Sheet.

(3) The cotton soil-depleting base to be entered on line 5 must agree with the entry for the farm on the County Listing Sheet.

(4) The subtotal to be entered on line 4 must be a figure obtained by subtracting from the entry on line 7, Column (A), the sum of the entries on line 5 and 6 in Column (A).

(5) The sugar beet soil-depleting base must be determined and entered prior to the determination and entry of the flax soil-depleting base. The sugar beet soil-depleting base to be entered on line 2 must be the 1936 acreage of sugar beets entered on line 2, Column (B), or the figure entered on line 4, Column (A), whichever is the smaller.

(6) The flax soil-depleting base to be entered on line 3 must be the 1936 acreage of flax entered on line 3, Column (B), or the entry on line 4, Column (A), minus the entry on line 2, Column (A), whichever is the smaller.

(7) The general soil-depleting base to be entered on line 1 must be a figure obtained by subtracting from the entry on line 4 the sum of the entries on lines 2 and 3.

(8) The subtotal on line 4 must represent the sum of the entries on lines 1, 2, and 3.

(c) Preparation of Column (F)—Productivity Index or Yield Per Acre.

(1) Enter on line 1 the productivity index for the farm approved by the State Committee on the County Listing Sheet (Form WR-3).

(2) Enter on lines 2, 3, 5, and 6 the yield per acre of such crop approved for the farm by the State committee on the County Listing Sheet.

(2) Execution of Table II—Class II Payments and Allowance.

(a) *Column (A).*—The practice numbers to be entered on lines 8, 9, and 10 must agree with the practices reported for payment in Section IV of Form WR-10 for the farm.

(b) *Column (B).*—The acres to be entered on lines 8, 9, and 10 must agree with the number of acres reported opposite each respective practice in Section IV of Form WR-10, for the farm.

(c) *Line 12.*—The entry to be made on line 12 must agree with the total acreage of soil-conserving crops reported in Section V of Form WR-10, for the farm. (See Supplementary Instructions for this State.)

(3) Execution of Table III—Soil-Conserving Acreage Requirements and/or Deductions Incurred.

(a) *Line 15.—Column (B).*—The entry to be made here-in must represent the total acreage of soil-conserving crops

reported in Section V of Form WR-10, for the farm, less the acreage of crops reported in said Section V which qualify in all counties to determine the soil-building allowance only. (See Supplementary Instructions for this State.)

(b) *Line 16.*—

(1) *Column (A), Item (a), for Sugar Beets.*—The committee should enter herein the minimum acreage of soil-conserving crops required with respect to sugar beets which, if entered by the committee, must represent 25 percent of the sugar beet soil-depleting base reported on line 2, Column (a), in Table I.

(2) *Column (B), Item (a), for Sugar Beets.*—The entry to be made herein shall represent the acres of soil-conserving crops on land adapted to the production of sugar beets, reported in the last line in Section V of Form WR-10, for the farm. (See Supplementary Instructions for this State.)

(3) *Column (B), Item (b)—For All Other.*—The entry to be made herein must represent the total acreage of soil-conserving crops excluding the acreage of such crops on land adapted to the growing of sugar beets, reported in Section V of Form WR-10, less the acreage of crops which qualify in all counties to determine the soil-building allowance only, plus the acreage of soil-conserving crops on land adapted to the growing of sugar beets, in excess of the minimum acreage required for sugar beets. (See Supplementary Instructions for this State.)

(4) *Execution of Table IV—Summary of Payments—Line 29.*—The entry to be made herein must be expressed as a percentage and must agree with the applicant's share of the principal crop stated in Section II of Form WR-10, for the farm.

All of the foregoing entries must be made before the application is signed by the applicant, and sent to the State office for completion.

SECTION 18. *Supplementary Instructions—Arizona.*—

A. *Execution of Form WR-11.*—(1) *Table II: Class II Payments and Allowance.*—

(a) *Line 12.*—The entry on line 12 must agree with the figure reported on line 44, in Section V of Form WR-10—Arizona, for the farm.

(2) *Table III: Soil-Conserving Acreage Requirements and/or Deductions Incurred.*—

(a) *Line 15—Column (B).*—This entry must represent the sum of the items appearing in Section V of Form WR-10—Arizona, for the farm on lines 36 and 43.

(b) *Line 16.*—

(1) *Column (B), Item (b), For All Other.*—This entry must represent the sum of the items appearing in Section V of Form WR-10—Arizona, for the farm, on lines 36 and 43, plus an amount of the acreage reported on line 45 of such Form WR-10, not in excess of 20 percent of the flax soil-depleting base.

(2) *Column (C), Total Deficit.*—See following computation table for determining this entry.

Computation Table

Method of determining the correct entry on Form WR-11.
A. *Line 16—Column (b), Item (b), For All Other.*—

1. WR-10, Line 36.....	
2. WR-10, Line 43.....	
3. Item 1 plus Item 2.....	
4. WR-10, Line 45.....	
5. WR-11, Col. (A), Line 3, Table I.....	
6. Minimum requirement for flax.....	0.20
7. Item 5 times Item 6.....	
8. Item 4 or 7, whichever is smaller.....	
9. Correct entry (Item 3 plus Item 8).....	acres

⁵ On the assumption that no sugar beets were grown on the farm in 1936.

3. *Soil-building practices and rates of payment.*—In accordance with the provisions of section 1, part II, of WR-B-1, Revised, and subject to the conditions of said bulletin, payment will be made for the carrying out in 1936 of soil-building practices, in the State of Arizona, as follows:

Practices:	Rate of payment per acre
A-1.....	\$4.00
A-2.....	3.00
B-1.....	1.00
B-2.....	2.50
B-3.....	1.00
C-1.....	2.00
C-2.....	3.00
D.....	.50
E.....	1.00
F.....	5.00
G-1.....	10.00
G-2.....	5.00

SECTION 19. *Supplementary Instructions—California.*—

A. *Execution of Form WR-11.*—(1) *Table II: Class II Payments and Allowance.*—

(a) *Line 12.*—The entry on line 12 must agree with the entry on line 46 in Section V of Form GR-10—California, for the farm.

(2) *Table III: Soil-Conserving Acreage Requirements and/or Deductions Incurred.*—

(a) *Line 15.*—Column (B).—This entry must represent the sum of the entries on lines 36 and 45 in Section V of Form WR-10—California, for the farm.

(b) *Line 16.*—

(1) *Column (B), Item (a) For Sugar Beets.*—This entry must represent the sum of the entries on lines 47 and 48 in Section V of Form WR-10—California, for the farm.

(2) *Column (B), Item (b), For All Other.*—See Computation table below for determining this entry.

Computation Table

Method of determining the correct entry on Form WR-11.

A. *Line 16—Column (B), Item (b), For All Other.*—

[Where item 6, below, equals or exceeds item 7, below]

1. WR-10, Line 36.....	
2. WR-10, Line 45.....	
3. Item 1 plus item 2.....	
4. WR-10, Line 48.....	
5. Item 3 less item 4.....	
6. WR-11, Col. (A), Item (a), Line 16.....	
7. WR-10, Line 47.....	
8. Am't by which item 6 exceeds item 7.....	
9. Item 4 less item 8.....	
10. Correct Entry (Item 5 plus item 9).....	acres

or—

[Where item 6, above, is less than item 7, above, use table below]

1. WR-10, Line 36.....	
2. WR-10, Line 45.....	
3. Item 1 plus item 2.....	
4. WR-10, Line 47.....	
5. WR-11, Col. (A), Item (a), Line 16.....	
6. Am't by which item 4 exceeds item 5.....	
7. Minimum Required for Flax.....	
8. Lesser of items 6 or 7.....	
9. Correct Entry (Item 3 plus item 8).....	acres

3. *Soil-building practices and rates of payment.*—In accordance with the provisions of section 1, part II, of WR-B-1, Revised, and subject to the conditions of said bulletin, payment will be made for the carrying out in 1936 of soil-building practices, in the State of California, as follows:

Practices:	Rate of payment per acre
A-1-a.....	\$4.00
A-1-b.....	2.00
A-2-a.....	3.00
A-2-b.....	1.50

Practices—Continued.	Rate of payment per acre
A-3	\$1.00
A-4-a	4.00
A-4-b	2.50
B-1	2.00
B-2	2.00
C	5.00
D	2.00
E	5.00
F-1	1.00
F-2	.50
G-1	10.00
G-2	5.00

SECTION 20. Supplementary Instructions—Colorado.—

A. Execution of Form WR-11.—(1) Table II: Class II Payments and Allowance.—Line 12.—The entry on line 12 must represent the sum of the items in Section V of Form WR-10—Colorado, for the farm, on lines 36 and 40, unless the farm with respect to which Form WR-10 has been submitted is located in a county in which additional soil-building practices set forth on lines 41-44, inclusive, qualify as soil-conserving crops for all purposes, in which event the entry on line 12 must agree with the entry on line 46 in Section V of Form WR-10—Colorado, for the farm.

(2) Table III: Soil-Conserving Acreage Requirements and/or Deductions Incurred.

(a) Line 15—Column (B).—This entry must agree with the figure appearing on line 36 in Section V of Form WR-10—Colorado, for the farm, unless the farm with respect to which Form WR-10 has been submitted is located in a county in which additional soil-building practices set forth on lines 41-44, inclusive, qualify as soil-conserving for all purposes, in which event the entry in Column (B), line 15 must represent the sum of the items appearing on lines 36 and 45 in Section V of Form WR-10—Colorado, for the farm.

(b) Line 16—

(1) Column (B), Item (a), For Sugar Beets.—This entry must agree with the figure appearing on line 47 in Section V of Form WR-10—Colorado, for the farm.

(2) Column (B), Item (b), For All Other.—This entry must agree with the item appearing in Section V of Form WR-10—Colorado, for the farm, on line 36, less the figure reported on line 47, plus the amount by which the actual 1936 acres [Column (B), Item (a), WR-11], For Sugar Beets, exceeds the required acres [Column (A), Item (a), WR-11], For Sugar Beets, provided that, if the farm is located in a county in which additional soil-building practices set forth on lines 41-44, inclusive, in Form WR-10—Colorado, qualify as soil-conserving crops for all purposes, the entry on Form WR-11 in Column (B), Item (b), For All Other, must represent the sum of the items appearing on lines 36 and 45 in Section V of Form WR-10—Colorado, for the farm, less the figure reported on line 47, plus the amount by which the actual 1936 acres [Column (B), Item (a), WR-11], For Sugar Beets, exceeds the required acres [Column (A), Item (a), WR-11], For Sugar Beets.

COMPUTATION TABLE

Method of determining the correct entry on Form WR-11.
A. Line 16.—Column (B), Item (b), For All Other.—

1. WR-10, Line 36	-----
2. WR-10, Line 47	-----
3. Item 1 less item 2	-----
4. WR-11, Col. (B), Item (a), Line 16	-----
5. WR-11, Col. (A), Item (a), Line 16	-----
6. Item 4 less item 5	-----
7. Correct Entry (Item 3 plus item 6)	----- acres

or—

(If the farm is located in a county in which the additional soil-building practices set forth on lines 41-44, inclusive Section V, WR-10, qualify as soil-conserving crops, use table below.)

1. WR-10, Line 36	-----
2. WR-10, Line 45	-----
3. Item 1 plus item 2	-----
4. WR-10, Line 47	-----
5. Item 3 less item 4	-----
6. WR-11, Col. (B), Item (a), Line 16	-----
7. WR-11, Col. (a), Item (a), Line 16	-----
8. Item 6 less item 7	-----
9. Correct Entry (Item 5 plus item 8)	----- acres

3. Soil-building practices and rates of payment.—In accordance with the provisions of Section 1, Part II of WR—B-1, Revised, and subject to the conditions of said bulletin, payment will be made for the carrying out in 1936 of soil-building practices, in the State of Colorado, as follows:

Practices:	Rate of payment per acre
A-1-a	\$3.00
A-1-b	2.50
A-2-a	2.50
A-2-b	1.50
A-3-a	1.50
A-3-b	\$1.00
A-4-a	2.50
A-4-b	1.50
A-5-a	3.00
A-5-b	1.50
A-6-a	2.50
A-6-b	1.50
B-1-a	2.50
B-1-b	1.50
B-2	1.00
B-3	1.00
B-4	1.00
C	1.00
D	.50
E	5.00
F	2.00

SECTION 21. Supplementary Instructions—Idaho.—

A. Execution of Form WR-11.—1. Table II: Class II Payments and Allowances—

(a) Lines 8, 9, and 10.—

(1) If practice numbers B-2-a, B-2-b, B-2-c, or B-4 are reported in Column (A), a Class II payment shall be made with respect to such practices only if the farm whereon such practices were carried out is located in one of the following "summer-fallow counties" of Idaho.

Boundary, Shoshone, Nez Perce, Adams, Gem, Ada, Jefferson, Teton, Power, Twin Falls, Franklin, Kootenai, Latah, Lewis, Valley, Boise, Elmore, Fremont, Bonneville, Bannock, Cassia, Bear Lake, Benewah, Clearwater, Idaho, Washington, Canyon, Camas, Madison, Bingham, Caribou, Oneida.

(2) If practice C (or C-1) is reported in Column (A), a Class II payment shall not be made with respect to such practice, if the farm whereon such practice was carried out is located in one of the following counties of Southern Idaho:

Nez Perce, Payette, Owyhee, Valley, Custer, Gooding, Twin Falls, Oneida, Clark, Madison, Bingham, Bear Lake, Adams, Gem, Ada, Elmore, Blaine, Lincoln, Minidoka, Power, Jefferson, Teton, Bannock, Franklin, Washington, Canyon, Boise, Lemhi, Camas, Jerome, Cassia, Butte, Fremont, Bonneville, Caribou.

(b) Line 12.—The entry on line 12 must represent the sum of the items on lines 36, 40, 41, and 42 in Section V of Form WR-10—Idaho, for the farm, unless the farm with respect to which Form WR-10 has been submitted is located in one of the summer fallow counties of Idaho [see 1 (a) (1) above], where the soil-building practice set forth on line 43 in Section V of said Form WR-10 qualifies as a soil-conserving crop for all purposes, in which event the entry on line 12 must agree with the figure reported on line 44 in Section V of said Form WR-10.

2. Table III: Soil-Conserving Acreage Requirements and/or Deductions Incurred.—

(a) Line 15—Column (B). This entry must represent the sum of the items appearing on lines 36, 41, and 42 in Section V of Form WR-10—Idaho, for the farm, unless the

farm with respect to which Form WR-10 has been submitted is located in one of the "summer fallow counties" of Idaho [see 1 (a) (1) above], in which event the entry in Column (B), line 15, must represent the sum of the entries appearing on lines 36, 41, 42, and 43 in Section V of Form WR-10-Idaho, for the farm.

(b) *Line 16.*—

(1) Column (B), Item (a), For Sugar Beets. This entry must agree with the figure appearing on line 45 in Section V of Form WR-10-Idaho, for the farm.

(2) Column (B), Item (b), For All Other. This entry must represent the sum of the items on lines 36, 41, and 42 in Section V of Form WR-10-Idaho, for the farm, less the figure reported on line 45, plus the amount by which the actual 1936 acres [Col. (B), Item (a), WR-11], For Sugar Beets, exceeds the required acres [Col. (A), Item (a), WR-11], For Sugar Beets: *Provided*, That if the farm is located in one of the "summer fallow counties" of Idaho add to the amount obtained above, the entry on line 43.

Computation Table

Method of determining the correct entry on Form WR-11.

A. *Line 16—Column (B), Item (b), For All Other.*—

1. WR-10, Line 36	-----	
2. WR-10, Line 41	-----	
3. WR-10, Line 42	-----	
4. Sum of items 1, 2, 3	-----	
5. WR-10, Line 45	-----	
6. Item 4 less item 5	-----	
7. WR-11, Col. (B), Item (a), Line 16	-----	
8. WR-11, Col. (A), Item (a), Line 16	-----	
9. Item 7 less item 8	-----	
10. Correct Entry (Item 6 plus item 9)	-----	acres

or—

(If the farm is located in one of the summer fallow counties of Idaho use table below.)

1. WR-10, Line 36	-----	
2. WR-10, Line 41	-----	
3. WR-10, Line 42	-----	
4. WR-10, Line 43	-----	
5. Sum of items 1-4, inclusive	-----	
6. WR-10, Line 45	-----	
7. Item 5 less item 6	-----	
8. WR-11, Col. (B), Item (a), Line 16	-----	
9. WR-11, Col. (A), Item (a), Line 16	-----	
10. Item 8 less item 9	-----	
11. Correct Entry (Item 7 plus item 10)	-----	acres

3. *Soil-building practices and rates of payment.*—In accordance with the provisions of section 1, part II, of WR-B-1, Revised, and subject to the conditions of said bulletin, payment will be made for the carrying out in 1936 of soil-building practices, in the State of Idaho, as follows:

Practices:	Rate of payment per acre
A-1-a	\$3.50
A-1-b	2.00
A-2	1.00
A-3-a	2.50
A-3-b	1.60
A-4-a	3.00
A-4-b	2.00
A-5	2.00
A-6	5.00
B-1-a	10.00
B-1-b	5.00
B-2-a	.50
B-2-b	.50
B-2-c	.75
B-3	6.00
B-4	2.50
C-1	2.00

SECTION 22.—Supplementary Instructions—Kansas.—

A. *Execution of Form WR-11.*—1. *Table II: Class II Payments and Allowance.*—

(a) *Line 12.*—The entry on line 12 must represent the sum of the items in Section V, of Form WR-10—Kansas, for the farm on lines 36 and 40, unless the farm with respect to which Form WR-10 has been submitted is located in a county in which additional soil-building practices set forth on lines 41-43, inclusive, qualify as soil-conserving crops for all purposes in which event, the entry on line 12 must agree with the entry on line 45 in Section V of Form WR-10—Kansas, for the farm.

2. *Table III: Soil-Conserving Acreage Requirements and/or Deductions Incurred.*

(a) *Line 15.*—Column (B). This entry must agree with the figure reported on line 36 in Section V of Form WR-10—Kansas, for the farm, unless the farm with respect to which Form WR-10 has been submitted is located in a county in which the additional soil-building practices set forth on lines 41-43, inclusive, qualify as soil-conserving crops for all purposes, in which event the entry in Column (B), line 15 must represent the sum of the items appearing on lines 36 and 44 in Section V of Form WR-10—Kansas, for the farm.

(b) *Line 16.*—

(1) *Column (B), Item (a), For Sugar Beets.*—This entry must agree with the figure appearing on line 46 in Section V of Form WR-10—Kansas, for the farm.

(2) *Column (B), Item (b), For All Other.*—This entry must represent the figure appearing on line 36 in Section V of Form WR-10—Kansas, for the farm, less the figure reported on line 46, plus the amount by which the actual 1936 acres [Col. (B), Item (a), WR-11], For Sugar Beets, exceeds the required acres [Col. (A), Item (a), WR-11], For Sugar Beets: *Provided*, That if the farm is located in a county in which additional soil-building practices set forth in lines 41-43, inclusive, qualify as soil-conserving crops for all purposes, the entry on Form WR-11, Column (B), Item (b), For All Other, must represent the sum of the items on lines 36 and 44 in Section V of Form WR-10—Kansas, for the farm, less the figure reported on line 46, plus the amount by which the actual 1936 acres [Col. (B), Item (a), WR-11], For Sugar Beets, exceeds the required acres [Col. (A), Item (a), WR-11], For Sugar Beets.

Computation Table

Method of determining the correct entry on Form WR-11.

A. *Line 16—Column (B), Item (b), For All Other.*—

1. WR-10, Line 36	-----	
2. WR-10, Line 46	-----	
3. Item 1, above, less item 2, above	-----	
4. WR-11, Col. (B), Item (a), Line 16	-----	
5. WR-11, Col. (A), Item (a), Line 16	-----	
6. Item 4, less item 5	-----	
7. Correct Entry (Item 3 plus item 6)	-----	acres

or—

(If the farm is located in a county in which additional soil-building practices set forth on lines 41-43, inclusive, Section V, Form WR-10, qualify as soil-conserving crops, use table below.)

1. WR-10, Line 36	-----	
2. WR-10, Line 44	-----	
3. Item 1, plus item 2	-----	
4. WR-10, Line 46	-----	
5. Item 3, less item 4	-----	
6. WR-11, Col. (B), Item (a), Line 16	-----	
7. WR-11, Col. (A), Item (a), Line 16	-----	
8. Item 6, less item 7	-----	
9. Correct Entry (Item 5, plus item 8)	-----	acres

3. *Soil-building practices and rates of payment.*—In accordance with the provisions of section 1, part II, of WR-B-1, Revised, and subject to the conditions of said bulletin, payment will be made for the carrying out in 1936 of soil-building practices, in the State of Kansas, as follows:

Practices:	Rate of payment per acre
A-1-----	\$2.00
A-2-----	1.50
A-3-----	1.00
A-4-----	1.50
A-5-----	1.00
A-6-----	2.00
A-7-----	2.00
B-1-----	1.00
B-2-----	1.00
B-3-----	1.00
C-----	1.00
D-----	5.00
E-----	2.50
F-----	2.00

SECTION 23. Supplementary Instructions—Montana.

A. Execution of Form WR-11.—(1) Table II: Class II Payments and Allowance.—

(a) *Line 12.*—The entry on line 12 must agree with the item in Section V of Form WR-10—Montana, for the farm, on line 44, unless Form WR-1—Supplement-1 has been filed with respect to the farm, in which event the entry on line 12 must represent the sum of the entries on lines 36, 40, and 42 in Section V of Form WR-10—Montana, for the farm, provided the farm is located in Toole, Liberty, Hill, Phillips, Teton, or Cascade county, and *Further provided that*, if the farm is located in Hill or Phillips county and Form WR-8 has been filed with respect thereto, the entry on line 12 shall be the applicable amount determined above or 15 percent of the total soil-depleting base on such farm, whichever is the smaller.

Table for determining correct entry on line 12, WR-11

Forms Filed	Use Entries on WR-10, on—	If farm is located in—
WR-10-----	Line 44-----	Toole, Liberty, Hill, Phillips, Teton or Cascade county.
WR-10, and WR-1—Supplement-1-----	Lines 36, 40, and 42-----	
WR-10 and WR-8-----	Line 44, or 15% of the total soil-depleting base, whichever is the smaller.	"Emergency Drought County."
WR-10, WR-8, and WR-1—Supplement-1-----	Lines 36, 40, and 42 or 15% of the total soil-depleting base, whichever is smaller.	Hill or Phillips county.

(2) Table III: Soil-Conserving Acreage Requirements and/or Deductions Incurred.—

(a) *Line 15—Column (B).*—This entry must represent the sum of the figures reported on lines 36 and 43 in Section V of Form WR-10—Montana, for the farm, unless Form WR-1—Supplement-1 has been filed with respect to the farm, in which event the entry in Column (B), line 15 must represent the sum of the items appearing on lines 36 and 42 in Section V of Form WR-10—Montana, for the farm, provided the farm is located in Toole, Liberty, Hill, Phillips, Teton, or Cascade County.

(b) *Line 16.*—

(1) *Column (A), Item (b), For All Other.*—If Form WR-1—Supplement-1 has been filed with respect to the farm, the entry on Form WR-11 in Column (A), Item (b), For All Other, must represent 10 percent of the general soil-depleting base and 20 percent of the flax soil-depleting base.

(2) *Column (B), Item (a), For Sugar Beets.*—This entry must agree with the figure appearing on line 45 in Section V of Form WR-10—Montana, for the farm.

(3) *Column (B), Item (b), For All Other.*—This entry must represent the item appearing on line 44 in Section V of Form WR-10—Montana, for the farm, less the sum of the figures reported on lines 40 and 45, plus the amount by which the actual 1936 acres [Column (B), Item (a), WR-11], For Sugar Beets, exceeds the required acres

[Column (A), Item (a), WR-11], For Sugar Beets, *Provided that*, if Form WR-1—Supplement-1 has been filed with respect to the farm, the entry on Form WR-11 in Column (B), Item (b), For All Other, must represent the sum of the items appearing on lines 36 and 42 in Section V of Form WR-10—Montana, for the farm, less the figure reported on line 45, plus the amount by which the actual 1936 acres [Column (B), Item (a), WR-11], For Sugar Beets, exceeds the required acres [Column (A), Item (a), WR-11], For Sugar Beets, provided the farm is located in Toole, Liberty, Hill, Phillips, Teton, or Cascade county.

Computation Table

Method of determining the correct entry on Form WR-11.

A. Line 16—Column (B), Item (b), For All Other.—

1. WR-10, Line 44-----	-----
2. WR-10, Line 40-----	-----
3. WR-10, Line 45-----	-----
4. Item 2 plus item 3-----	-----
5. Item 1 less item 4-----	-----
6. WR-11, Col. (B), Item (a), Line 16--	-----
7. WR-11, Col. (A), Item (a), Line 16--	-----
8. Item 6 less item 7-----	-----
9. Correct Entry (Item 5 plus item 8) --	----- acres
or—	
(If Form WR-1—Supplement-1 accompanies Form WR-10, Report of Performance, for the farm, use table below.)	
1. WR-10, Line 36-----	-----
2. WR-10, Line 42-----	-----
3. Item 1 plus item 2-----	-----
4. WR-10, Line 45-----	-----
5. Item 3 less item 4-----	-----
6. WR-11, Col. (B), Item (a), Line 16--	-----
7. WR-11, Col. (A), Item (a), Line 16--	-----
8. Item 6 less item 7-----	-----
9. Correct Entry (Item 5 plus item 8) --	----- acres

3. *Soil-building practices and rates of payment.*—In accordance with the provisions of section 1, part II, of WR-B-1, Revised, and subject to the conditions of said bulletin, payment will be made for the carrying out in 1936 of soil-building practices, in the State of Montana, as follows:

Practices:	Rate of payment per acre
A-1-----	\$3.00
A-2-----	2.00
A-3-----	1.00
A-4-----	1.50
A-5-----	3.00
B-1-----	1.50
B-2-----	1.50
C-----	5.00
D-----	.50
E-----	2.00
F-----	1.00
G-1-----	1.00
G-2-----	.50

SECTION 24. Supplementary Instructions—Nevada.—

A. Execution of Form WR-11.—(1) Table II: Class II Payments and Allowance.—

(a) *Line 12.*—The entry on line 12 must agree with the figure reported on line 45 in Section V of Form WR-10—Nevada, for the farm.

(2) Table III: Soil Conserving Acreage Requirements and/or Deductions Incurred.—

(a) *Line 15.*—Column (B). This entry must represent the sum of the items appearing in Section V of Form WR-10—Nevada, for the farm, on lines 36, and 44.

(b) *Line 16.*—

(1) *Column (B), Item (a), For Sugar Beets.* This entry must agree with the figure appearing on line 46 in Section V of Form WR-10, Nevada, for the farm.

(2) Column (B), Item (b), For All Other. This entry must represent the sum of the items appearing in Section V of Form WR-10, Nevada, for the farm, on lines 36 and 44, less the figure reported on line 46, plus the amount by which the actual 1936 acres [Col. (B), Item (a), WR-11], For Sugar Beets, exceeds the required acres [Col. (A), Item (a), WR-11], For Sugar Beets.

COMPUTATION TABLE

Method of determining the correct entry on Form WR-11.
A. Line 16. Column (B), Item (b), For All Other.

1. WR-10, Line 36	-----	
2. WR-10, Line 44	-----	
3. Item 1 plus item 2	-----	
4. WR-10, Line 46	-----	
5. Item 3 less than item 4	-----	
6. WR-11, Col. (B), Item (a), Line 16	-----	
7. WR-11, Col. (A), Item (a), Line 16	-----	
8. Item 6 less item 7	-----	
9. Correct Entry (Item 5 plus item 8)	-----	acres

3. Soil-building practices and rates of payment.—In accordance with the provisions of section 1, part II, of WR-B-1, Revised, and subject to the conditions of said bulletin, payment will be made for the carrying out in 1936 of soil-building practices, in the State of Nevada, as follows:

Practices:	Rate of payment per acre
A-1-a	\$3.50
A-1-b	2.00
A-2-a	2.50
A-2-b	1.50
A-3-a	1.50
A-3-b	1.00
A-4-a	4.00
A-4-b	2.00
B	2.00
C	5.00
D-1	1.00
D-2	.50
E-1	10.00
E-2	5.00
F	5.00

SECTION 25. Supplementary Instructions—New Mexico.—

A. Execution of Form WR-11.—(1) Table II: Class II Payments and Allowance.

(a) Line 12.—The entry on line 12 must represent the sum of the items in Section V of Form WR-10—New Mexico, for the farm, on lines 36, 40, and 41, unless the farm with respect to which Form WR-10 has been submitted is located in a county in which additional soil-building practices set forth in lines 42-48, inclusive, qualify as soil-conserving crops for all purposes, in which event the entry on line 12 must agree with the entry on line 50 in Section V of Form WR-10—New Mexico, for the farm.

(2) Table III: Soil-Conserving Acreage Requirements and/or Deductions Incurred.—

(a) Line 15—Column (B).—This entry must represent the sum of the items appearing in Section V of Form WR-10, New Mexico, for the farm, on lines 36 and 41, unless the farm with respect to which Form WR-10 has been submitted, is located in a county in which the additional soil-building practices set forth on lines 42-48, inclusive, qualify as soil-conserving crops for all purposes, in which event the entry in Column (B), line 15, must represent the sum of the items appearing on lines 36 and 49 in Section V of Form WR-10, New Mexico, for the farm.

(b) Line 16.—

(1) Column (B), Item (a), For Sugar Beets. This entry must represent the sum of the items appearing on lines 51 and 52 in Section V of Form WR-10—New Mexico, for the farm.

(2) Column (B), Item (b), For All Other. See following computation table for determining this entry.

Computation Table

Method of determining the correct entry on Form WR-11.
A. Line 16—Column (B), Item (b), For All Other.⁶

1. WR-10, Line 36	-----	
2. WR-10, Line 41	-----	
3. Item 1 plus item 2	-----	
4. WR-10, Line 52	-----	
5. Item 3 less item 4	-----	
6. WR-11, Col. (A), Item (a), Line 16	-----	
7. WR-10, Line 51	-----	
8. Amount by which item 6 exceeds item 7	-----	
9. Item 4 less item 8	-----	
10. Correct Entry (Item 5 plus item 9)	-----	acres

or—
(If the farm is located in a county in which the additional soil-building practices set forth on lines 42-48, inclusive, qualify as soil-conserving crops, use table below.)

1. WR-10, Line 36	-----	
2. WR-10, Line 49	-----	
3. Item 1 plus item 2	-----	
4. WR-10, Line 52	-----	
5. Item 3 less item 4	-----	
6. WR-11, Col. (A), Item (a), Line 16	-----	
7. WR-10, Line 51	-----	
8. Amount by which item 6 exceeds item 7	-----	
9. Item 4 less item 8	-----	
10. Correct Entry (Item 5 plus item 9)	-----	acres

3. Soil-building practices and rates of payment.—In accordance with the provisions of section 1, part II, of WR-B-1, Revised, and subject to the conditions of said bulletin, payment will be made for the carrying out in 1936 of soil-building practices, in the State of New Mexico, as follows:

Practices:	Rate of payment per acre
A-1	\$4.00
A-2	2.00
A-3	3.00
A-4	1.50
A-5	1.00
B-1	3.50
B-2	1.00
B-3	1.00
C	1.00
D-1	2.00
D-2	3.00

SECTION 26. Supplementary Instructions—North Dakota.—

A. Execution of Form WR-11.—(1) Table II: Class II Payments and Allowance.—

(a) Line 12.—The entry on line 12 must agree with the figure reported on line 42, in Section V of Form WR-10—North Dakota, for the farm; unless Form WR-8 or Form WR-21 has been filed with respect to the farm, in which event this entry must agree with the figure reported on line 42 or shall represent 15 percent of the total soil-depleting base on the farm, whichever is the smaller.

(2) Table III: Soil-Conserving Acreage Requirements and/or Deductions Incurred.

(a) Line 15—Column (B).—This entry must represent the sum of the items appearing in Section V of Form WR-10, North Dakota, for the farm, on lines 36 and 41.

(b) Line 16.

(1) Column (B), Item (a), For Sugar Beets. This entry must agree with the figure appearing on line 43 in Section V of Form WR-10, North Dakota, for the farm.

⁶ On the assumption that no flax was grown on the farm.

(2) Column (B), Item (b), For All Other. This entry must represent the sum of the items appearing in Section V of Form WR-10—North Dakota, for the farm, on lines 36 and 41, less the figure reported on line 43, plus the amount by which the actual 1936 acres [Col. (B), Item (a), WR-11], For Sugar Beets, exceeds the required acres [Col. (A), Item (a), WR-11], For Sugar Beets.

Computation Table

Method of determining the correct entry on Form WR-11.

A. Line 16—Column (B), Item (b), For All Other.

1. WR-10, Line 36.....	-----
2. WR-10, Line 41.....	-----
3. Item 1, plus item 2.....	-----
4. WR-10, Line 43.....	-----
5. Item 3 less item 4.....	-----
6. WR-11, Col. (B), Item (a), Line 16.....	-----
7. WR-11, Col. (A), Item (a), Line 16.....	-----
8. Item 6 less item 7.....	-----
9. Correct Entry (Item 5 plus item 8).....	----- acres

3. Soil-building practices and rates of payment.—In accordance with the provisions of section 1, part II, of WR-B-1, Revised, and subject to the conditions of said bulletin, payment will be made for the carrying out in 1936 of soil-building practices, in the State of North Dakota, as follows:

Practices:	Rate of payment per acre
A-1.....	\$2.00
A-2.....	1.00
A-3.....	3.00
A-4.....	1.50
A-5.....	1.50
B.....	5.00
C-1.....	1.00
C-2.....	.50
D-1.....	2.00
D-2.....	1.25

SECTION 27. Supplementary Instructions—Oregon.—

A. Execution of Form WR-11.—(1) Table II: Class II Payments and Allowance.—

(a) Lines 8, 9, and 10.—

(1) If practice numbers A-4-a, A-4-b, A-5, or C (or C-1) are reported in Column (A), a class II payment shall be made with respect to such practices only if the farm whereon such practices were carried out is located in one of the following counties in Western Oregon:

Clatsop, Washington, Polk, Benton, Coos, Curry, Columbia, Multnomah, Clackamas, Marion, Lane, Josephine, Tillamook, Yamhill, Lincoln, Linn, Douglas, Jackson.

(2) If practice numbers A-6-a, A-6-b, A-7, A-9, B-2-a, B-2-b, B-2-c, B-3, or B-4 are reported in Column (A), a class II payment shall be made with respect to such practices only if the farm whereon such practices were carried out is located in one of the following counties of Eastern Oregon:

Wasco, Gilliam, Wheeler, Baker, Crook, Lake, Jefferson, Morrow, Union, Malheur, Deschutes, Harney, Sherman, Umatilla, Wallowa, Grant, Klamath, Hood River.

(3) If practice number A-8-b is reported in column (A), a class II payment shall be made with respect to such practice only if the farm whereon such practice was carried out is located in one of the following counties of Oregon:

Jefferson, Sherman, Union, Gilliam, Morrow, Wasco, Umatilla.

or is located in Lake, Deschutes, or Crook counties, in which event a notation must have been made in Section IV of Form WR-10—Oregon, for the farm, in the space provided in practice number A-8-b, to the effect that such practice was carried out on non-irrigated land.

(b) Line 12.—The entry on line 12 must represent the sum of the items on lines 36, 40, and 43: *Provided, however, That—*

(1) If the farm with respect to which Form WR-10 has been submitted is located in a "dry land area" of Eastern Oregon (see list of counties comprising Eastern Oregon in 1 (a) (2) of this section), the entry must represent the sum of the items on lines 36, 40, 43, and 44 in Section V of Form WR-10—Oregon, for the farm.

(2) If the farm with respect to which Form WR-10 has been submitted is located in Morrow, Sherman, Gilliam, or Jefferson County, the entry on line 12 must agree with the figure reported on line 46 in Section V of Form WR-10—Oregon, for the farm.

(2) Table III: Soil-Conserving Acreage Requirements and/or Deductions Incurred.—

(a) Line 15—Column (B). This entry must represent the sum of the items appearing on lines 36 and 43 in Section V of Form WR-10—Oregon, for the farm: *Provided, however, That—*

(1) If the farm with respect to which Form WR-10 has been submitted is located in a "dry land area" of Eastern Oregon, the entry in Column (B), line 15 must represent the sum of the entries appearing on lines 36, 43, and 44 in Section V of Form WR-10—Oregon, for the farm.

(2) If the farm is located in Morrow, Sherman, Gilliam, or Jefferson County, the entry in Column (B), line 15 must represent a figure obtained by subtracting the entry on line 40 from the entry on line 46 in Section V of Form WR-10—Oregon, for the farm.

(b) Line 16.—

(1) Column (B), Item (a), For Sugar Beets. This entry must agree with the figure reported on line 47 in Section V of Form WR-10—Oregon, for the farm.

(2) Column (B), Item (b), For All Other. This entry must represent the sum of the items appearing on lines 36 and 43 less the figure reported on line 47 in Section V of Form WR-10—Oregon, for the farm, plus the amount by which the actual 1936 acres (Col. (B), Item (a), WR-11), For Sugar Beets, exceeds the required acres (Col. (A), Item (a), WR-11), For Sugar Beets: *Provided, however, That—*

(a) If the farm is located in a "dry land area" of Eastern Oregon, the entry on Form WR-11 in Column (B), Item (b), For All Other, must represent the sum of the items on lines 36, 43, and 44, less the figure reported on line 47 in Section V of Form WR-10—Oregon, for the farm, plus the amount by which the actual 1936 acres (Col. (B), Item (a), WR-11), For Sugar Beets, exceeds the required acres (Col. (A), Item (a), WR-11), For Sugar Beets.

(b) If the farm is located in Morrow, Sherman, Gilliam, or Jefferson County, the entry on Form WR-11 in Column (B), Item (b), For All Other, must represent the sum of the items in Section V of Form WR-10 on lines 36, 43, 44, and 45, less the figure reported on line 47, plus the amount by which the actual 1936 acres (Col. (B), Item (a), WR-11), For Sugar Beets, exceeds the required acres (Col. (A), Item (a), WR-11), For Sugar Beets.

Computation Table

Method of determining the correct entry on Form WR-11.

A. Line 16—Column (B), Item (b), For All Other.—

1. WR-10, Line 36.....	-----
2. WR-10, Line 43.....	-----
3. Item 1 plus item 2.....	-----
4. WR-10, Line 47.....	-----
5. Item 3 less item 4.....	-----
6. WR-11, Col. (B), Item (a), Line 16.....	-----
7. WR-11, Col. (A), Item (a), Line 16.....	-----
8. Item 6 less item 7.....	-----
9. Correct Entry (Item 5 plus item 8).....	----- acres

or—

(If the farm is located in a dry land area of Eastern Oregon, use table below.)

1. WR-10, Line 36	-----	
2. WR-10, Line 43	-----	
3. WR-10, Line 44	-----	
4. Sum of items 1, 2, 3	-----	
5. WR-10, Line 47	-----	
6. Item 4 less item 5	-----	
7. WR-11, Col. (B), Item (a), Line 16	-----	
8. WR-11, Col. (A), Item (a), Line 16	-----	
9. Item 7 less item 8	-----	
10. Correct Entry (Item 6 plus item 9)	-----	acres

or—

(If the farm is located in Morrow, Sherman, Gilliam, or Jefferson County, use table below.)

1. WR-10, Line 36	-----	
2. WR-10, Line 43	-----	
3. WR-10, Line 44	-----	
4. WR-10, Line 45	-----	
5. Sum of items 1-4, inclusive	-----	
6. WR-10, Line 47	-----	
7. Item 5 less item 6	-----	
8. WR-11, Col. (B), Item (a), Line 16	-----	
9. WR-11, Col. (A), Item (a), Line 16	-----	
10. Item 8 less item 9	-----	
11. Correct Entry (Item 7 plus item 10)	-----	acres

3. *Soil-building practices and rates of payment.*—In accordance with the provisions of section 1, part II, of WR-B-1, Revised, and subject to the conditions of said bulletin, payment will be made for the carrying out in 1936 of soil-building practices, in the State of Oregon, as follows:

Practices:	Rate of payment per acre
A-1-a	\$3.50
A-1-b	2.00
A-2	1.00
A-3-a	2.50
A-3-b	1.50
A-3-c	2.00
A-4-a	3.00
A-4-b	2.00
A-5	4.00
A-6-a	1.00
A-6-b	1.50
A-7	2.00
A-8	2.00
A-9	5.00
B-1-a	10.00
B-1-b	5.00
B-2-a	.50
B-2-b	.50
B-2-c	.75
B-3-a	6.00
B-4	2.50
C-1	2.50

SECTION 28. Supplementary Instructions—Utah.

A. *Execution of Form WR-11.*—(1) *Table II: Class II Payments and Allowance.*—

(a) *Line 12.*—The entry on line 12 must agree with the figure reported on line 46, in Section V of Form WR-10—Utah, for the farm.

(2) *Table III: Soil-Conserving Acreage Requirements and/or Deductions Incurred.*—

(a) *Line 15.—Column (B).*—This entry must represent the sum of the items appearing on lines 36, 41, 42, and 44, of Section V of Form WR-10—Utah, for the farm, and if an entry appears on line 43a, should include an additional acreage determined as follows:

(1) If the acreage reported on line 43a is in an amount equal to or in excess of 7½ percent of the general soil-depleting base include in the above sum an amount of the acreage reported on line 43, not in excess of the maximum diversion for payment, or

(2) If the acreage reported on line 43a is in an amount less than 7½ percent of the general soil-depleting base the above sum shall not include any of the acreage reported on line 43.

(b) *Line 16.*—

(1) *Column (A), Item (a), For Sugar Beets.*—This entry must represent 25 percent of the sugar beet soil-depleting base entered on line 2 in Column (A) of Table I.

(2) *Column (B), Item (a), For Sugar Beets.*—This entry must agree with the acreage as reported on line 47 in Section V of Form WR-10—Utah, for the farm.

(3) *Column (B), Item (b), For All Other.*—This entry must represent the sum of the items reported on lines 36 and 45 of Section V of Form WR-10—Utah, for the farm, less the acreage reported on line 47, plus the amount by which the actual 1936 acres [Col. (B), Item (a), WR-11], For Sugar Beets, exceeds the required acres [Col. (A), Item (a), WR-11], For Sugar Beets.

Computation Table

Method of Determining the correct entries on Form WR-11.

A. *Line 15.—Column (B).*—

1. WR-10, Line 36	-----	
2. WR-10, Line 45	-----	
3. Item 1 plus item 2	-----	
4. WR-10, Line 43	-----	
5. Item 3 less item 4	-----	
6. WR-11, Table I, Line 1, Col. (A)	-----	
7. Percentage of General Soil-Depleting Base	-----	.075
8. Item 7 times item 6	-----	
9. WR-10, Line 43a	-----	
10. WR-11, Table I, Line 1, Col. (D) or WR-10, Line 43, whichever is the smaller	-----	
11. Correct Entry (Item 5 plus item 10)	-----	acres

B. *Line 16.—Column (B), Item (b), For All Other.*—

1. WR-10, Line 36	-----	
2. WR-10, Line 45	-----	
3. Item 1 plus item 2	-----	
4. WR-10, Line 47	-----	
5. Item 3 less item 4	-----	
6. WR-11, Table II, Line 16 (a), Col. (B)	-----	
7. WR-11, Table II, Line 16 (a), Col. (A)	-----	
8. Item 6 less item 7	-----	
9. Correct Entry (Item 5 plus item 8)	-----	acres

3. *Soil-building practices and rates of payment.*—In accordance with the provisions of Section 1, Part II of WR-B-1, Revised, and subject to the conditions of said bulletin, payment will be made for the carrying out in 1936 of soil-building practices, in the State of Utah, as follows:

Practices:	Rate of payment per acre
A-1-a	\$3.50
A-1-b	2.00
A-2-a	2.50
A-2-b	1.50
A-3-a	1.50
A-3-b	1.00
A-4-a	3.50
A-4-b	2.00
B	2.00
C	5.00
D	2.00
E	5.00
F-1	1.00
F-2	.50
G-1	10.00
G-2	5.00

This entry to be made only where item 8 equals or exceeds item 9.

SECTION 29. Supplementary Instructions—Washington.—
A. Execution of Form WR-11—(1) Table II: Class II Payments and Allowance.—

(a) *Lines 8, 9, and 10.*—If practice numbers B-2-a, B-2-b, B-2-c, or B-4 are reported in Column (A), a Class II payment shall be made with respect to such practices only if the farm whereon such practices were carried out is located in one of the following "summer fallow counties" of Washington:

Adams, Chelan, Perry, Grant, Klickitat, Pend Oreille, Walla Walla, Asotin, Columbia, Franklin, Island, Lincoln, Spokane, Whitman, Benton, Douglas, Garfield, Kittitas, Okanogan, Stevens, Yakima.

(b) *Line 12.*—The entry on line 12 must represent the sum of the items on lines 36, 40, and 43 in Section V of Form WR-10, Washington, for the farm; *provided, however, that*—

(1) If the farm with respect to which Form WR-10 has been submitted is located in one of the "summer fallow counties" of Washington (see subsection (a), above), the entry on line 12 must represent the sum of the items on lines 36, 40, 43, and 44 in Section V of the Form WR-10—Washington, for the farm.

(2) If the farm with respect to which Form WR-10 has been submitted is located in a "dry land area"² of Washington, the entry on line 12 must agree with the item on line 46 in Section V of Form WR-10—Washington, for the farm.

(2) Table III: Soil-Conserving Acreage Requirements and/or Deductions Incurred.—

(a) *Line 15—Column (B).*—This entry must represent the sum of the items appearing on lines 36 and 43 in Section V of Form WR-10—Washington, for the farm, *provided, however, That*

(1) If the farm with respect to which Form WR-10 has been submitted is located in one of the "summer fallow counties" of Washington, the entry on line 15 must represent the sum of the items appearing on lines 36, 43, and 44 in Section V of Form WR-10—Washington, for the farm.

(2) If the farm with respect to which Form WR-10 has been submitted is located in a "dry land area"² of Washington, the entry on line 15 must represent the sum of the items appearing on lines 36, 43, 44, and 45 in Section V of Form WR-10—Washington, for the farm.

(b) *Line 16.*—

(1) *Column (B), Item (a), For Sugar Beets.*—This entry must agree with the figure reported on line 47 in Section V of Form WR-10—Washington, for the farm.

(2) *Column (B), Item (b), For All Other.*—This entry must represent the sum of the items appearing on lines 36 and 43, less the figure reported on line 47 in Section V of Form WR-10—Washington, for the farm, plus the amount by which the actual 1936 acres (Col. (B), Item (a), WR-11), For Sugar Beets, exceeds the required acres (Col. (A), Item (a), WR-11), For Sugar Beets: *Provided, however, That*—

(a) If the farm is located in a "summer fallow county" of Washington, the entry on Form WR-11 in Column (B), Item (b), For All Other, must represent the sum of items on lines 36, 43, and 44, less the figure reported on line 47 in Section V of Form WR-10—Washington, for the farm, plus the amount by which the actual 1936 acres (Col. (B), Item (a), WR-11), For Sugar Beets, exceeds the required acres (Col. (A), Item (a), WR-11), For Sugar Beets. (b) If the farm is located in a "dry land area"² of Washington, the entry on Form WR-11 in Column (B), Item (b), For All Other, must represent the sum of the items appearing on lines 36, 43, 44, and 45, less the figure re-

ported on line 47 in Section V of Form WR-10—Washington, for the farm, plus the amount by which the actual 1936 acres (Col. (B), Item (a), WR-11), For Sugar Beets, exceeds the required acres (Col. (A), Item (a), WR-11), For Sugar Beets.

DEPARTMENT OF COMMERCE.

Bureau of Marine Inspection and Navigation.

METHOD OF ACCOUNTING FOR MONIES RECEIVED FROM SALE OF CONTINUOUS DISCHARGE BOOKS¹

To Collectors of Customs and United States Shipping Commissioners:

Under the provisions of Section 3 of the Act of June 25, 1936, Public, No. 808, 74th Congress (49 Stat. 1934), if a seaman loses his continuous discharge book otherwise than by shipwreck or other casualty, he will be required to pay for a duplicate an amount equal to the cost of such book to the Government, which for the current supply will be fifty cents.

The seaman will be required to make affidavit in duplicate as to the loss of his book on Form 719-e, which affidavit is to be executed before a shipping commissioner or collector or deputy collector of customs. The original copy will be forwarded to the Bureau of Marine Inspection and Navigation at Washington and the Director of the Bureau will cause to be prepared a duplicate book which will be sent to the proper office for completion and delivery to the seaman. Payment therefor will be collected at the time of delivery.

When payment for the book is made to a collector or deputy collector of customs he will issue a receipt on Cat. No. 1008 designating the payment as "Miscellaneous Navigation Receipts—Account Sale Continuous Discharge Book," and account for same to the Department in the usual manner.

When the money is collected by a shipping commissioner, he will issue to the seaman an informal receipt, stating thereon the number of the discharge book and the amount collected. The shipping commissioner will pay over to the collector of customs of his port all monies received from this source, such payment to be made not later than the first business day of the week succeeding that in which the collection is made. The collector will issue a receipt to the shipping commissioner on Cat. 1008 for the monies so paid, designating the payment as "Miscellaneous Navigation Receipts—Account Sale Continuous Discharge Book," and

¹ See Section 8 (c), p. 2207.

account for the same to the Department in the same manner as though collected directly from the seaman.

Approved, December 28, 1936.

FEDERAL TRADE COMMISSION.

United States of America—Before Federal Trade Commission

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 24th day of December A. D. 1936.

Commissioners: Charles H. March, Chairman; Garland S. Ferguson, Jr., Ewin L. Davis, W. A. Ayres, Robert E. Freer.

[File No. 21-265]

IN THE MATTER OF TRADE PRACTICE RULES FOR THE MIRROR MANUFACTURING INDUSTRY

PROMULGATION OF TRADE PRACTICE RULES

Due proceedings having been had under the trade practice conference procedure in pursuance of the Act of Congress approved September 26, 1914 (38 Stat. 717).

It is now ordered that the trade practice rules of Group I which have been approved by the Commission in this proceeding and the rule in Group II which has been received by the Commission as an expression of the industry be, and the same are, hereby promulgated for the Mirror Manufacturing Industry, as follows:

TRADE PRACTICE RULES

Mirror Manufacturing Industry

These rules promulgated by the Commission are designed to foster and promote fair competitive conditions in the interest of industry and the public. They are not to be used, directly or indirectly, as part of or in connection with any combination or agreement to fix prices, or for the suppression of competition, or otherwise to unreasonably restrain trade.

Group I

The unfair trade practices which are embraced in Group I rules are considered to be unfair methods of competition within the decisions of the Federal Trade Commission and the courts; and appropriate proceedings in the public interest will be taken by the Commission to prevent the use of such unlawful practices in or directly affecting interstate commerce.

Rule 1.

The false or deceptive marking or branding of products of the industry for the purpose or with the capacity, tendency, or effect of misleading or deceiving purchasers, prospective purchasers, or the consuming public, with respect to the brand, grade, quality, quantity, origin, size, substance, character, nature, finish, material, content, or preparation of such products, or in any other material respect, is an unfair trade practice.

Rule 2.

The making, or causing or permitting to be made or published, any false, untrue, or deceptive statement or representation, by way of advertisement or otherwise, concerning the brand, grade, quality, quantity, origin, size, substance, character, nature, durability, backing, silvering, finish, material, content, or preparation of any product of the industry, or concerning a guarantee or warranty against defective silvering or "silver spoilage" or the like, or in any other material respect, or the use, directly or indirectly, of any so-called guarantee or warranty which is false, misleading, or deceptive in any respect, having the tendency, capacity, or effect of misleading or deceiving purchasers, prospective purchasers, or the consuming public, is an unfair trade practice.

Rule 3.

Wilfully inducing or attempting to induce, by any false or deceptive means whatsoever, the breach of any lawful contract or contracts existing between competitors and their customers or their suppliers, or wilfully interfering with or obstructing the performance of any such contractual duties or services, with the purpose and effect of unduly hampering, injuring, or embarrassing competitors in their businesses, is an unfair trade practice.

Rule 4.

The use of false or deceptive selling methods or false or deceptive credit terms, which have the tendency, capacity, or effect of misleading or deceiving purchasers, prospective purchasers, or the consuming public, is an unfair trade practice.

Rule 5.

Directly or indirectly to give, or permit to be given, or offer to give, money or anything of value to agents, employees, or representatives of customers or prospective customers, or to agents, employees, or representatives of competitors' customers or prospective customers, without the knowledge of their employers or principals, as an inducement to influence their employers or principals to purchase or contract to purchase industry products from the maker of such gift or offer, or to influence such employers or principals to refrain from dealing or contracting to deal with competitors, is an unfair trade practice.

Rule 6.

Securing information from competitors concerning their businesses by false or misleading statements or representations or by false impersonations of one in authority, and the wrongful use thereof to unduly hinder or stifle the competition of such competitors, is an unfair trade practice.

Rule 7.

The practice of shipping or delivering products which do not conform to the specifications of buyers provided for in the contract or order, without the consent of the buyers to such changes or substitutions, and with the effect of misleading or deceiving purchasers, prospective purchasers, or the consuming public, is an unfair trade practice.

Rule 8.

The defamation of competitors by falsely imputing to them dishonorable conduct, inability to perform contracts, questionable credit standing, or by other false representations, or the false disparagement of the grade or quality of their goods, with the tendency, capacity or effect of misleading or deceiving purchasers, prospective purchasers, or the consuming public, is an unfair trade practice.

Rule 9.

Wilfully enticing away the employees of competitors, with the purpose and effect of unduly hampering, injuring, or embarrassing competitors in their businesses, is an unfair trade practice.

Rule 10.

The practice of selling goods below the seller's cost, with the intent and with the effect of injuring a competitor and where the effect may be to substantially lessen competition or tend to create a monopoly or to unreasonably restrain trade, is an unfair trade practice; all elements recognized by good accounting practice as proper elements of such cost shall be included in determining cost under this rule.

Rule 11.

The imitation of the trade-marks, trade names, brands, labels, or other marks of identification of competitors, having the tendency, capacity, or effect of misleading or deceiving purchasers, prospective purchasers, or the consuming public, is an unfair trade practice.

Rule 12.

The circulation of threats of suit for infringement of patent or trade-marks among customers or prospective customers

of competitors, not made in good faith but for the purpose or with the effect of harassing or intimidating such customers, or prospective customers, or of unduly hampering, injuring, or prejudicing competitors in their businesses, is an unfair trade practice.

Rule 13.

In connection with the sale, offering for sale, or advertising of mirrors made of common window glass, heavy sheet glass, or any other material not plate glass as defined in Federal Specifications DD-G-451, the use of the word "plate" in such manner as to mislead or deceive purchasers, prospective purchasers or the consuming public, is an unfair trade practice.

Rule 14.

The offering or giving of prizes, premiums, or gifts in connection with the sale of industry products, or as an inducement thereto, by any scheme which involves lottery, misrepresentation or fraud, is an unfair trade practice.

Rule 15.

The selling by members of the industry of regular lines of merchandise as "close-outs" for the purpose of inducing purchasers to believe they are receiving bargains when such is not the case, with the tendency, capacity, or effect of misleading or deceiving purchasers, prospective purchasers, or the consuming public, is an unfair trade practice.

Rule 16.

For any member of the industry knowingly to aid or abet a person, firm, or corporation in the use of unfair trade practices is an unfair trade practice.

Rule 17.

Withholding from or inserting in the invoice statements which make the invoice a false record, wholly or in part, of the transaction represented on the face thereof, with the purpose or effect of misleading or deceiving purchasers, prospective purchasers, or the consuming public, is an unfair trade practice.

Rule 18.

The publishing or circulating, by any member of the industry, of false or misleading price quotations, price lists, terms or conditions of sale, with the tendency, capacity, or effect of misleading or deceiving purchasers, prospective purchasers, or the consuming public, is an unfair trade practice.

Rule 19.

In connection with the sale or offering for sale of any "shock" mirrors of the lower quality known as "seconds", the advertising, representing, or otherwise describing of such mirrors in any manner calculated to mislead or deceive purchasers, prospective purchasers, or the consuming public as to the true character thereof, is an unfair trade practice.

Rule 20.

In the sale, offering for sale, or shipment of products of the industry, the failure to brand, mark, or identify such products so as to disclose their true character, where such failure has the tendency, capacity, or effect of misleading or deceiving purchasers, prospective purchasers, or the consuming public, is an unfair trade practice.

Group II

Rule A.

The industry recommends that each member thereof comply with Commercial Standard CS 27-36 for Mirrors as promulgated by the National Bureau of Standards, U. S. Department of Commerce.

A committee on trade practices is hereby created by the industry to cooperate with the Federal Trade Commission and to perform such acts as may be legal and proper to put these rules into effect.

By direction of the Commission.

IN THE MATTER OF THE MIDDLE WEST CORPORATION

NOTICE OF AND ORDER FOR HEARING

An application having been duly filed with this Commission, by The Middle West Corporation, a registered holding company, pursuant to Section 10 (a) (1) of the Public Utility Holding Company Act of 1935, for approval of the acquisition by applicant of certain securities of Southern United Gas Company, a Delaware corporation, to wit: \$19,550.00 aggregate principal amount of First Lien 6% Income Bonds, Series B, 195½ shares of 6% Non-Cumulative Preferred Stock (\$100 par), and 977½ shares of Common Stock (\$1.00 par), in exchange for \$39,100.00 principal amount of First Lien 6% Gold Bonds, Series "A", of Southern United Gas Company, a New Jersey corporation, pursuant to a plan of reorganization of said company last-named, which plan of reorganization applicant states has been approved by the District Court of the United States for the Northern District of Illinois, Eastern Division.

It is ordered that a hearing on such matter be held on January 18, 1937, at ten o'clock in the forenoon of that day at Room 1101, Securities and Exchange Building, 1778 Pennsylvania Avenue NW., Washington, D. C.; and

Notice of such hearing is hereby given to said party and to any interested State, State commission, State securities commission, municipality, and any other political subdivision of a State, and to any representative of interested consumers or security holders, and any other person whose participation in such proceeding may be in the public interest or for the protection of investors or consumers. It is requested that any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice to that effect with the Commission on or before January 13, 1937.

It is further ordered that Robert P. Reeder, an officer of the Commission, be and he hereby is designated to preside at such hearing, and authorized to adjourn said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda, contracts, agreements, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law.

Upon the completion of the taking of testimony in this matter, the officer conducting said hearing is directed to close the hearing and make his report to the Commission.

By the Commission.

IN THE MATTER OF TEXAS UTILITIES COMPANY

ORDER APPROVING APPLICATION AND FIXING DATE FOR DECLARATION TO BECOME EFFECTIVE

Texas Utilities Company, a subsidiary company of Community Power & Light Company, a registered holding company, having filed with the Commission an application pursuant to Section 10 (a) of the Public Utility Holding Company Act of 1935 for approval of the acquisition of utility and other assets constituting substantially all the assets of New Mexico Utilities Company in consideration of the issue of a demand note for \$278,500 and the assumption of certain liabilities of New Mexico Utilities Company, as specified in said application, and having filed a declaration with respect to said assumption of liabilities; appropriate notice and an opportunity for hearing on said application and declaration having been given; the record in this matter having been examined; and the Commission having made and filed its findings herein:

It is ordered that the acquisition by applicant of such assets in the manner and subject to the terms set forth in such application be and the same hereby is approved, upon condition, however, that applicant shall file with this Commission a statement waiving notice of and consenting to the issuance of an order pursuant to Section 12 (c) of said Act as hereinafter provided;

It is further ordered that said declaration be and become effective as of the date of consummation of said acquisition, upon condition, however, that applicant shall file with this Commission a statement waiving notice of and consenting to the issuance of an order pursuant to Section 12 (c) of said Act as hereinafter provided;

It is further ordered pursuant to Section 12 (c) that said applicant shall not declare or pay any dividend upon its common stock until and unless the aggregate of the stated value of its common stock, contributed surplus, and earned surplus shall equal and be maintained at not less than \$1,400,000.

By the Commission.

No. 206

PRESIDENT OF THE UNITED STATES.

SUPERIOR NATIONAL FOREST—MINNESOTA

By the President of the United States of America

A PROCLAMATION

WHEREAS by proclamation of April 9, 1927 (45 Stat. 2904), there were set apart as the Superior National Forest in the State of Minnesota certain lands which had been, or might thereafter be, acquired by the United States of America under authority of the act of Congress approved March 1, 1911, ch. 186, 36 Stat. 961 (U. S. C., title 16, sec. 516), as amended by the act of June 7, 1924, ch. 348, 43 Stat. 653 (U. S. C., title 16, sec. 515), together with certain adjoining public lands; and

WHEREAS it appears that it would be in the public interest to modify the boundaries of the said national forest by including therein certain forest lands which have been, or may be, acquired under authority of the said acts of March 1, 1911, and June 7, 1924, and certain adjoining public lands:

NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, President of the United States of America, under and by virtue of the power in me vested by section 24 of the act of March 3, 1891, ch. 561, 26 Stat. 1095, 1103, as amended (U. S. C., title 16, sec. 471), the act of June 4, 1897, ch. 2, 30 Stat. 34, 36 (U. S. C., title 16, sec. 473), and section 11 of the said act of March 1, 1911, do proclaim that all lands of the United States within the areas shown as additions on the diagram attached hereto and made a part hereof¹ are hereby included in and reserved as a part of the Superior National Forest, and that all lands within such areas which may hereafter be acquired by the United States under the said acts of March 1, 1911, and June 7, 1924, shall upon acquisition of title thereto be reserved and administered as a part of the said Forest.

The reservation made by this proclamation shall, as to such of the lands as are affected thereby, be subject to the terms and conditions of the act of July 10, 1930, ch. 381, 46 Stat. 1020, and shall as to all lands which are at this date legally appropriated under the public land laws or reserved for any public purpose other than for classification under Executive Orders No. 5833 of April 8, 1932, and No. 6964 of February 5, 1935, as amended, be subject to, and shall not interfere with or defeat, legal rights under such appropriation, nor prevent the use for such public purpose of lands so reserved, so long as such appropriation is legally maintained or such reservation remains in force.

¹ See p. 2251.
